Dear Ms Walli:

Re: EB-2008-3040 IESO Fiscal Year 2009 Fees Submission for Review

Please receive this letter as application for the Society of Energy Professional's intervention in the above-referenced matter. The Society of Energy Professionals represents more than 7,000 professional and supervisory employees in Ontario's electricity sector including approximately 275 employees of the IESO.

The Society of Energy Professionals is interested in the reliable and affordable provision of electricity to the ratepayers of this Province. We are also interested in the impact of this matter on the roles and responsibilities of the various government agencies in the electricity sector.

We have no additions to the draft issues list and, at this point in time, we take no position with respect to the type of hearing should one be required.

Please direct all Board communications to my attention at:
