

IN THE MATTER OF the Ontario Energy Board Act, 1998,
c.15 (Schedule B);

IN THE MATTER OF GrandBridge Energy Inc.'s Non-Wires
Solution Application (Application) to the Ontario Energy Board
for an Order or Orders approving of fixing just and reasonable
rates and other charges for the distribution of electricity as of
May 1, 2026, Board File No. EB-2025-0265;

AND IN THE MATTER OF the OEB's Letter of Direction dated
December 19, 2025 (Letter) in this Application.

AFFIDAVIT OF GAETANA GIRARDI

I, **GAETANA GIRARDI**, of the City of Cambridge, **MAKE AN OATH AND SAY AS FOLLOWS:**

I am the Director, Regulatory Affairs and Revenue Assurance for GrandBridge Energy Inc. (GrandBridge Energy or GBE) and, as such, have knowledge of the matters hereinafter deposed to.

Pursuant to the OEB's Letter in the above-referenced case, GrandBridge Energy has completed the following steps:

1. On January 5th, 2026, GrandBridge Energy posted the Notice, the Application and evidence, related to GrandBridge Energy's NWS Application on GrandBridge Energy's website as shown in **Exhibit A**.
2. On January 6th, 2026, GrandBridge Energy arranged for the electronic service of the Notice directly on the Independent Electricity System Operator, and all the intervenors in GrandBridge Energy's past proceedings EB-2018-0028 and EB-2021-0009, respectively:
 - i. EB-2018-0028: Consumers Council of Canada, Hydro One Networks Inc., School Energy Coalition, Toyota Motor Manufacturing Canada Inc., and Vulnerable Energy Consumers Coalition.
 - ii. EB-2021-0009: Energy Probe Research Foundation, School Energy Coalition and Vulnerable Energy Consumer Coalition.

This is shown in **Exhibit B**

3. On January 5th, 2026, GrandBridge Energy arranged for the service via email of the Notice on all customers of GrandBridge Energy who have provided GrandBridge Energy with an email and the appropriate permission to use the email address to send utility or regulatory information. The email contains the text provided by the OEB and includes the Notice as an image and a live link to the OEB's website. An example of the email sent is included as **Exhibit C**.

4. On January 5th, 2026, GrandBridge Energy posted on X (formerly Twitter), LinkedIn, Facebook, and/or Instagram account the message provided in the OEB's Letter with a live link to the Notice posted on GBE's website. The posts and hyperlink are shown in **Exhibit D**.

Application for Funding for Non-Wires Solution Program (EB-2025-0265)

On December 1, 2025, GrandBridge Energy Inc. (GrandBridge Energy or GBE) applied to the Ontario Energy Board for approval of its Non-Wires Solution (NWS) Program. The NWS Program proposes to procure 20 MW of capacity through an NWS capacity auction for three years (2026 to 2028), during which time a traditional infrastructure investment can be planned and constructed. The application requests OEB approval of NWS rate riders for the period May 1, 2026, through December 31, 2028, for the GBE (E+) Rate Zone, and deferral variance account. GrandBridge Energy submits that the NWS Program has a benefit-to-cost ratio of 1.97. If the application is approved as filed, a GrandBridge Energy’s typical residential customer and a typical general service customer in the GBE (E+) rate zone (i.e., the service territory for the City of Cambridge, Township of North Dumfries and County of Brant) would see the following increase effective May 1, 2026.

[View GrandBridge Rate Hearing Notice](#) → [View the full application before the OEB](#) →

Proposed Rate Increase May 1, 2026	
Residential (750 kWh)	\$0.60 per month
General Service less than 50kW (2,000 kWh)	\$0.80 per month

ONTARIO ENERGY BOARD

NOTICE OF A RATE HEARING

GrandBridge Energy Inc. has applied for funding for its Non-Wires Solutions Program

GrandBridge Energy Inc. (GrandBridge Energy or GBE) proposes to procure 20 MW of capacity through a non-wires solution (NWS) capacity auction for three years (2026 to 2028), during which time a traditional infrastructure investment can be planned and constructed. GrandBridge Energy will request the need for the NWS Program 2026, allowing an application from the NWS Program’s first year. GrandBridge Energy submits that the NWS Program has a benefit-to-cost ratio of 1.97.

If the application is approved as filed, a GrandBridge Energy typical residential customer and a typical general service customer in the GBE (E+) rate zone (i.e., the service territory for the City of Cambridge, Township of North Dumfries and County of Brant) would see the following increase effective May 1, 2026.

Residential (750 kWh)	\$0.60 per month
General Service less than 50kW (2,000 kWh)	\$0.80 per month

Other customers, including businesses, will also be affected.

GrandBridge Energy has also applied for approval to establish a NWS Deferral and Variance Account: the NWS Program Costs Variance Account.

It’s important to review the application carefully to determine whether you may be affected by the proposed changes.

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for a written hearing. If you think a different hearing type is needed, you can refer to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as interveners. After the hearing, we will decide whether to approve the application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process. Visit www.oeb.ca/hearings and use the number **EB-2025-0265** to:

- Review the application
- File a letter with your comments
- Apply to become an intervenor

IMPORTANT DATES

You must engage with the OEB on or before **January 10, 2026** to:

- Provide input on the hearing type (oral, electronic or written)
- Apply to be an intervenor

If you do not, the hearing will move forward without you, and you will not receive any further notice of the proceeding.

PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. If you are a business or if you apply to become an intervenor, all the information you file will be on the OEB website.

Application for Funding for Non-Wires Solution Program (EB-2025-0265)

On December 1, 2025, GrandBridge Energy Inc. (GrandBridge Energy or GBE) has applied to the Ontario Energy Board for approval of a Non-Wires Solution (NWS) Program. If approved, there will be a change in our electricity distribution rates. Please review the Ontario Energy Board's Notice of Hearing to learn more and to find out how you can participate in the Ontario Energy Board's hearing.

The NWS Program proposes to procure 20 MW of capacity through an NWS capacity auction for three years (2026 to 2028), during which time a traditional infrastructure investment can be planned and constructed. The application requests Ontario Energy Board's approval of NWS rate riders for the period May 1, 2026, through December 31, 2028, for the GBE(E+) Rate Zone (i.e., the service territory for the City of Cambridge, Township of North Dumfries and County of Brant), and a deferral variance account. GrandBridge Energy submits that the NWS Program has a benefit-to-cost ratio of 1.97.

Please see the OEB's Notice of a Rate Hearing below and on GBE's website [HERE](#) under 'Active Applications.' You can also learn more information about the NWS Program [HERE](#).

NOTICE OF A RATE HEARING

GrandBridge Energy Inc. has applied for funding for its Non-Wires Solutions Program

GrandBridge Energy Inc. (GrandBridge Energy or GBE) proposes to procure 20 MW of capacity through a non-wires solution (NWS) capacity auction for three years (2026 to 2028), during which time a traditional infrastructure investment can be planned and constructed. GrandBridge Energy will reassess the need for the NWS beyond 2028, drawing on experience from the NWS Program's first years. GrandBridge Energy submits that the NWS Program has a benefit-to-cost ratio of 1.97.

If the application is approved as filed, a GrandBridge Energy typical residential customer and a typical general service customer in the GBE (E+) rate zone (i.e., the service territory for the City of Cambridge, Township of North Dumfries and County of Brant) would see the following increase effective May 1, 2026:

Residential (750 kWh)	\$0.60 per month
General Service less than 50kW (2,000 kWh)	\$0.80 per month

Other customers, including businesses, will also be affected.

GrandBridge Energy has also applied for approval to establish a NWS Deferral and Variance Account- the NWS Program Costs Variance Account.

It's important to review the application carefully to determine whether you may be affected by the proposed changes.

General Service less than 50kW (2,000 kWh)	\$0.80 per month

Other customers, including businesses, will also be affected.

GrandBridge Energy has also applied for approval to establish a NWS Deferral and Variance Account- the NWS Program Costs Variance Account.

It's important to review the application carefully to determine whether you may be affected by the proposed changes.

YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for a written hearing. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as intervenors. After the hearing, we will decide whether to approve the application.

HAVE YOUR SAY

You have the right to information about this application and to participate in the process. Visit www.oeb.ca/notice and use file number **EB-2025-0265** to:

- Review the application
- File a letter with your comments
- Apply to become an intervenor

IMPORTANT DATES

You must engage with the OEB on or before **January 19, 2026** to:

- Provide input on the hearing type (oral, electronic or written)
- Apply to be an intervenor

If you do not, the hearing will move forward without you, and you will not receive any further notice of the proceeding.

PRIVACY

If you write a letter of comment, your name and the content of your letter will be put on the public record and the OEB website. If you are a business or if you apply to become an intervenor, all the information you file will be on the OEB website.

NOTICE OF RATE HEARING

GrandBridge Energy Inc. has applied for funding for its Non-Wires Solutions Program

GrandBridge Energy Inc. (GrandBridge Energy or GBE) proposes to procure 20 MW of capacity through a non-wires solution (NWS) capacity auction for three years (2026 to 2028), during which time a traditional infrastructure investment can be planned and constructed. GrandBridge Energy will reassess the need for the NWS beyond 2028, drawing on experience from the NWS Program's first years. GrandBridge Energy submits that the NWS Program has a benefit-to-cost ratio of 1.97.

If the application is approved as filed, a GrandBridge Energy typical residential customer and a typical general service customer in the GBE (E-1) rate zone (i.e., the service territory for the City of Cambridge, Township of North Dumfries and County of Brant) would see the following increase effective May 1, 2026:

Residential (750 kWh)	\$0.60 per month
General Service less than 50kW (2,000 kWh)	\$0.80 per month

Other customers, including businesses, will also be affected.

GrandBridge Energy has also applied for approval to establish a NWS Deferral and Variance Account- the NWS Program Costs Variance Account.

It's important to review the application carefully to determine whether you may be affected by the proposed changes.
