Good afternoon,

NOW Inc. has reviewed the accuracy of the RRRP and CBR charge updates and confirm their accuracy.

NOW has updated Tab 3 (Continuity Schedule) of the Rate Generator Model with the 2026 Quarter 1 prescribed accounting interest rates.

Attached is the model as requested in your email.

Thank you,

**Geoffrey Sutton, CPA,
CA**

Subject: Updates to 2026 Rate Generator Model – RRRP, CBR Charges & 2026 Q1 Interest Rates

CAUTION: This email is from outside the organization. Do not click on links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

The OEB staff has updated Northern Ontario Wires' 2026 Rate Generator Model to reflect the revised Rural or Remote Electricity Protection (RRRP) and Capacity Based Recovery (CBR) charges communicated by the OEB on December 11, 2025.

In addition, the OEB has released the 2026 Quarter 1 prescribed accounting interest rates applicable to carrying charges for deferral, variance, and construction work in progress (CWIP) accounts for natural gas utilities, electricity distributors, and other rate-regulated entities.

OEB staff requests Northern Ontario Wires to:

- Review and confirm the accuracy of the RRRP and CBR charge updates; and
- Update Tab 3 (Continuity Schedule) of the Rate Generator Model with the 2026 Quarter 1 prescribed accounting interest rates.

Please respond to this email with the validated and updated model by **January 8, 2026**.

Thank you,

Urooj Iqbal
