Dear Mr. Murray:

**Re: Elexicon Energy Inc. - Draft Rate Order
2026 IRM Distribution Rate Application
OEB File No: EB-2025-0046**

As per the Decision and Order dated January 15, 2025 ("the Decision"), Elexicon Energy Inc. ("Elexicon") was directed to submit a Draft Rate Order ("DRO") with a proposed Tariff of Rates and Charges that reflects the Ontario Energy Board's ("OEB's") findings in the Decision by Monday January 19th.

Given the scope of items to prepare for the DRO, Elexicon requires additional time to comply with this direction beyond the two business days originally contemplated in the Decision. Elexicon will be providing the DRO by end of day on January 21st.

We recognize this may have an impact on the dates set out in the Decision and request the OEB to advise of the revised timelines in light of this development. Elexicon notes that it should be able to implement rates for consumption beginning February 1, 2026, in accordance with the Decision, provided that a final rate order is received from the OEB by February 6, 2026.

If any additional discussion is required on this matter, please reach out Erin Stevens, Director, Regulatory Affairs, via email (estevens@elexiconenergy.com) or phone, 289 355 9390.

We appreciate the OEB's patience and responsiveness on this matter.

Regards,
