Subject: Late Registration – Gas–Electric Coordination and Information Sharing Consultation

Dear Registrar,

I am writing in my capacity as Co-Chair of the Ontario Energy Collaborative Association (OECA) regarding the consultation on Gas–Electric Coordination and Information Sharing.

I would like to acknowledge that our registration was submitted after the stated deadline and to apologize for that oversight. The delay was administrative in nature and not reflective of our level of interest or engagement in this consultation.

The OECA recently convened the Ontario Energy Symposium on January 14, 2026, which included participation from senior representatives of the Ontario Energy Board alongside municipalities, utilities, ministries, and industry leaders. A clear outcome of that forum was the strong interest across senior stakeholders in improving coordination, transparency, and information sharing between gas and electricity systems. We are keen to ensure that this collaborative, cross-sector perspective is reflected in the current consultation record.

We respectfully request confirmation as to whether late participation is still possible. Our intent is to contribute constructively and in a manner that supports the Board's objectives and the broader public interest.

Thank you for your consideration.

Marc-Antoine Joly, P.Eng.

Co-Chair, Ontario Energy Collaborative Association
