Issues:

Environmental Defence intends to explore the following issues: - Whether the payment amounts are just and reasonable, including the underlying capital and operational costs; - Whether the incentive mechanisms relating to generation payments appropriately align the interests of OPG with the interests of customers; - The appropriateness of the proposed capital costs relating to upcoming large nuclear projects; and - Other topics relating to the interests of customers seeking clean and affordable power.

Policy Interests:

Environmental Defence's interest in this proceeding is in promoting both the public interest in environmental protection and the interests of consumers who desire clean and affordable energy.

Hearings:

Environmental Defence takes no position on the type of hearing in this proceeding.

Evidence:

Environmental Defence does not intend to file evidence.

Coordination with Other Intervenors:

Environmental Defence intends to coordinate with other intervenors, as it has on other OEB proceedings.

Cost Awards:

Environmental Defence is eligible for a cost award primarily under s. 3.03(b) of the Practice Direction as it primarily represents an interest or policy perspective relevant to the Board's mandate and to the proceeding for which cost award eligibility is sought, namely environmental and climate protection. In addition, with respect to s. 3.03(a) of the practice direction, Environmental Defence also represents the interests of consumers whose energy bills can be reduced through measures that lower both costs and environmental impacts.

Language Preference:

Environmental Defence will participate in English.
