-- Name --
Kalvin Holland

-- Do you reside in the impacted service area? -- Yes

-- Comments --
The fixed charge is proposed to increase 31%. This rate increase is unreasonable. Elexicon has projected their Base Revenue Requirement, based on an unreasonable increase in OM&A (projected to increase 25%), to increase 17%. The average increase since 2020 has been 6% per year. The rate increase at face value is greedy, attempting to increase their total profit value based on unreasonable Base Revenue Requirements. All while trying to reach the ceiling of the OEB's ROE maximum. A reasonable increase in the fixed charge should be, at maximum, 15%.
