Hi Jennifer,

Thank you for providing the updated Rate Generator Model. On review of Column BR, the values in BR25 and BR26 appear as credits. However, when calculating the interest rate for that period using this formula “=ROUND(+BO2X*0.0255*4/12,2)” the amount appears as a debit. Can you please verify the amounts in those cells?

Thank you.

Good morning Ashley,

Tab 3 of the Continuity Schedule did not reflect the Quarter 1 2026 OEB prescribed interest rate. The attached updated model now reflects the Quarter 1 2026 OEB prescribed interest rate of 2.55% for the period of January 1 through April 30th, 2026.

Interest was calculated for Jan 1, 2025 to December 31, 2025 with prescribed interest rates of

Q1 2025 - 3.64%

Q2 2025 - 3.16%

Q3 2025 - 2.91%

Q4 2025 - 2.91%

Thank you

Good Morning Jennifer,

Please confirm that Tab 3 (Continuity Schedule) reflects the Quarter 1 2026 OEB prescribed interest rate of 2.55%. If not, please update Tab 3, as necessary, and provide a breakdown for how interest was calculated.

Thank you.
