Re: Greater Sudbury Hydro Inc. – 2026 IRM Application
OEB File No.: EB-2025-0036
Updated Rate Generator Model (OPEBs Rate Riders and UTR Inputs)

Dear Mr. Murray:

Greater Sudbury Hydro Inc. (“GSHI”) writes in response to OEB staff correspondence advising that: (i) in the Decision and Order issued February 17, 2026 for the application of electricity distribution rates effective May 1, 2025, (the “Decision and Order”) the Ontario Energy Board (the “Board”) directed GSHI to include the approved OPEBs rate riders in its 2026 proposed Tariff of Rates and Charges; and (ii) OEB staff had updated the Rate Generator Model to incorporate the Uniform Transmission Rates (“UTRs”) approved by the Board on January 15, 2026.

GSHI confirms that it has updated the Rate Generator Model to reflect the Board’s direction by including the approved OPEBs rate riders in GSHI’s 2026 proposed Tariff of Rates and Charges. GSHI is filing the revised Rate Generator Model and resulting proposed tariff sheets with the Board concurrently with this letter.

In addition, GSHI has validated the model updates incorporating the UTR values approved by the Board on January 15, 2026, and has ensured that the remaining sections of the model remain consistent with these updated inputs.

For greater certainty, GSHI’s inclusion of the approved OPEBs rate riders in the revised model is provided in compliance with the Board’s direction and is without prejudice to GSHI’s rights. Nothing in this filing should be construed as a waiver of any rights or remedies available to GSHI, including the right to request a review and/or appeal of the Board’s Decision and Order, or any aspect thereof, in accordance with applicable legislation and the Board’s rules and procedures.

All of which is respectfully submitted.

Yours truly,

Tijja Luttrell, CPA, CA
Manager, Regulatory
Greater Sudbury Hydro Inc.
