**Attn: Ritchie Murray, Acting Registrar**

Dear Mr. Murray:

**Re: EB-2025-0252 – Alectra 2027-2031 – Technical Conference**

We are counsel to the School Energy Coalition (“SEC”). Pursuant to Procedural Order No.1, below are SEC’s time estimates and areas of focus for the Technical Conference. SEC is still reviewing the interrogatory responses, and these estimates should therefore be considered preliminary. SEC will provide an updated time estimate later this week before the start of the Technical Conference, if there are any changes.

Panel	Areas of Focus	Time Estimate
1	DSP, including capital planning process, reliability, system O&M	120 minutes
2	General Plant, IT, metering, customer service OM&A	40 minutes
3	OM&A, workforce, productivity framework, consolidation	70 minutes
4	Rate framework, load forecast, rate design, DVA, rate base, other revenue	60 minutes

Yours very truly,
