Attention: Acting Registrar

Dear Mr. Murray,

**Re: Enbridge Gas Inc.
Application for Multi-Year Natural Gas Demand Side Management (“DSM”) Plan
(2027-2030)
Board File No.: EB-2025-0295**

We are counsel to Three Fires Group Inc. (“**TFG**”) in Minogi Corp. (“**Minogi**”) in the above-noted proceeding (the “**Proceeding**”). TFG and Minogi provide the following limited comments on the draft issues list pursuant to Procedural Order No. 1 and the Board’s letter dated March 5, 2026.

Comments. TFG and Minogi have reviewed the draft issues list and note that their suggested additions that were adopted in the DSM roll-over application (EB-2024-0198) have been reflected in Issues #2 and #4 of the draft issues list for this Proceeding. TFG and Minogi have also considered the submissions of the other parties and support including the consideration of a cost of carbon for DSM cost-effectiveness testing as being both within the scope for the OEB and this Proceeding and relevant to DSM planning in Ontario. TFG and Minogi have no further additions or suggested edits for the draft issues list.

Issues Conference. TFG and Minogi intend to participate in the Issues Conference but do not intend to make oral submissions on the issue of considering the cost of carbon in this Proceeding to avoid unnecessary duplication with other intervenors on this issue.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Vollmer".
