Dear Mr. Murray:

EB-2025-0295 – Enbridge Gas Inc. – Application for Multi-Year Natural Gas Demand Side Management Plan – Issues Conference - Submissions of the Consumers Council of Canada

On December 18, 2025, Enbridge Gas Inc. (Enbridge Gas) applied to the Ontario Energy Board (OEB) for approval of a new natural gas demand side management (DSM) policy framework effective January 1, 2027 and approval of a new multi-year DSM plan, inclusive of budgets, programs and targets, from January 1, 2027 to December 31, 2030.

On February 27, 2026, the OEB issued Procedural Order No. 1 scheduling an Issue Conference on March 12, 2026 for parties to make submissions on the Draft Issues List. On March 5, 2026, the OEB issued a letter indicating its intent to hear submissions from parties at the Issues Conference on whether the consideration of a cost of carbon for DSM cost-effectiveness testing should be within scope of this proceeding, and added to the Issues List.

The Consumers Council of Canada (CCC) has no proposed changes to the draft Issues List. CCC intends to attend the Issues Conference on March 12, 2026. CCC also intends to make submissions on whether the consideration of a cost of carbon for DSM cost-effectiveness testing should be within the scope of this proceeding.

Yours truly,

Julie E. Girvan
