Toronto, ON M4P 1E4

March 27, 2026

**EB-2025-0064 Enbridge Gas Inc. Rebasing Application Phase 3
Correspondence pertaining to scheduling**

Dear Mr. Murray:

Pollution Probe is in receipt of the OEB Decision dated March 26, 2026 accepting the settlement agreement on issues except those in Issue 13 excluded from the settlement process¹. In the Decision the OEB noted that procedural details related to Issue 13 would follow in the future. In July 2025, Pollution Probe submitted a Motion² related to certain items listed in Issue 13 which may be part of a following procedural order.

This letter is to alert the OEB of a scheduling conflict that would impact Pollution Probe from participating in hearing activities from April 6 to 27, 2026. This includes lack of access to relevant information and documents during that period. As the OEB considers the next procedural steps and timing for this proceeding, we ask that the OEB consider this in the timings related to next steps.

Please reach out should you require any additional information.

Respectfully submitted on behalf of Pollution Probe.
