## Issues:

Pollution Probe represents a consumer and policy interest in this Generic Review of the Model Franchise Agreement for Natural Gas. The Model Franchise Agreement sets the foundational terms that define right and obligation, including for construction, operation and decommissioning of natural gas infrastructure in municipalities across Ontario. Pollution Probe has regularly been a party to natural gas proceedings that included impacts flowing from the Franchise Agreement and has promoted potential changes to better serve Ontario communities and the public interest. It was recommended by the OEB that the best time to provide such input and feedback is when the OEB reviews the Model Franchise Agreement. This Generic Proceeding represents the opportunity to provide such feedback.

## Policy Interests:

Please see above.

## Hearings:

It is recommended that the OEB solicit feedback on format once the scope and Issues List is

finalized.

## **Evidence:**

Pollution Probe does not intend to commission expert evidence at this time.

## **Coordination with Other Intervenors:**

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate.

## **Cost Awards:**

Pollution Probe respectfully requests your acceptance of this intervenor request and confirmation that it will be eligible for its costs. Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.
