OEB STAFF-1

Reference: Affidavit of Peter Graham (Intervenor Evidence), March 18, 2026

Preamble:

Six Nations stated that the affidavit provides important supplementary evidence regarding the history and status of Enbridge's consultation with Six Nations that is currently not on the record of the proceeding.

The evidence of Six Nations outlines the consultation process related to the Cedar Springs application starting with first notification by Enbridge Gas on September 29, 2021, and continuing until November 25, 2025. The affidavit describes concerns about the consultation process including an initial failed delivery of the Project Description Report (PDR), a request made for Six Nations' comments on the draft Environmental Report before the PDR was delivered, and a concern that the application was filed with the OEB prior to meaningful consultation. The evidence includes information on June 10, 2025 and November 25, 2025, consultation meetings.

Question(s):

Please describe the dates, format, scope and nature of consultation between Enbridge Gas and Six Nations following the meeting on November 25, 2025.

Please discuss if issues and concerns raised by Six Nations were addressed or resolved in consultation with Enbridge Gas after November 25, 2025.
