Attention: Ritchie Murray, Registrar

Dear Mr. Murray,

Re: EB-2025-0018 Application for 2026 Electricity Distribution Rates

Please be advised that North Bay Hydro Distribution Limited's ("NBHDL") has completed the review of the draft decision and order EB-2025-0018. We have not identified any aspects requiring corrective action with the written Draft decision and order.

NBHDL has identified that the adjustments made to the NBRZ Rate Model, as part of the interrogatory responses resubmitted to the RESS portal on March 19, were not incorporated into the models shared with the April 2 communication of the Draft Decision and Order.

Specifically, the North Bay Rate Zone Generator Model V2, Tab "3. Continuity Schedule," does not reflect the inclusion of the pre-2019 balances in Account 1595 line item (Row 31).

Respectfully submitted,

A handwritten signature in black ink that reads "MBrown".
