**Re: Incentive Rate-Setting Mechanism (IRM) Application
OEB File No.: EB-2025-0007**

Dear Registrar,

On behalf of Tillsonburg Hydro Inc. (THI) I am writing with respect to the above-noted Incentive Rate-Setting Mechanism (IRM) application in order to advise the Ontario Energy Board (the *Board*) of a partial withdrawal of THI's request for disposition and recovery of certain Group One deferral and variance account balances.

Further to discussions with Board Staff and in response to Board Staff interrogatories, THI hereby withdraws its request to recover the Cost of Power and Global Adjustment variance account balances associated with Account 1588 and Account 1589 as part of this IRM proceeding. THI will not seek disposition or recovery of these account balances at this time.

THI confirms that its evidence has been updated to reflect the removal of Accounts 1588 and 1589 from the Group One account disposition request, included with this letter THI has filed updated IRM and Tariff Sheet excel models to support this change, including updates, as applicable, to the following components of the evidence:

- Updated IRM Rate Generator Model and associated bill impacts
- Proposed Tariff Sheet

Notwithstanding the above, THI confirms that it continues to request Board approval for the disposition of the remaining Group One deferral and variance accounts included in the application, as originally filed and as further addressed through the interrogatory process.

THI is therefore requesting to dispose of the balance of \$161,507 despite the fact that it does not meet the threshold test for a total claim per kWh of \$0.001. The revised resulting amount of \$0.0009 is only marginally outside of the threshold test and still produces rate riders that are within four decimal places in all rate classes. Disposing of these balances within the 2026 rate year will ensure that future dispositions of DVAD balances won't be increased by this forgone amount in 2026 and will mitigate future rate impacts for the 8,600 customers impacted by these balances.

All other aspects of the IRM application remain unchanged.

If there are any questions, please contact Michael DeJong at 519-688-3009 ext. 4801, or by email at mdejong@tillsonburg.ca .

Yours truly,
