Dear Mr. Murray and Mr. Yunus:

**RE: Ontario Energy Board (OEB) Staff Submission
Hydro One Networks Inc. (Hydro One)
Leave to Construct and Expropriation Application – Welland-Thorold
Project
OEB File Number: EB-2025-0290**

I am writing on behalf of the Intervenor Futecan Canda Inc. ("Futecan")

Through interrogatories Futecan, requested an update from Hydro One as to whether Hydro One had reconsidered route options related to Futecan's property located at 9941 Lundy's Lane, recognized legally as, PIN: 66265-0029 (LT) PT TWP LT 137 STAMFORD; PT TWP LT 152 STAMFORD AS IN R0L55305 (2NDLY); NIAGARA FALLS, and how the preferred route identified in the EA affected it. In response, Hydro One stated that after considering Futecan's feedback in routing workshop discussions and through technical review, it had updated the route to reflect preferences and impact mitigation concerns raised by Futecan. Please see Interrogatory Responses, Exhibit I, Tab 2, Schedule 1 .

Futecan confirms that based on Hydro One's interrogatory responses that the alternative routing proposed by Hydro One is responsive to Futecan to concerns and Futecan respectfully requests that the OEB approve this alternative routing along an easement that runs adjacent to Thorold Townline Road, at the edge of the Futecan Property.

Please accept this letter as the submission of the Intervenors, Futecan Canada Inc.

Yours truly,

Kristi Ross
