Dear David Stevens:

**Re: Generic Hearing on Uniform Transmission Rates (UTRs)
Ontario Energy Board File Number: EB-2022-0325**

This letter is in response to your letter to the Ontario Energy Board (OEB) dated April 7, 2026, on behalf of Niagara-on-the-Lake Hydro Inc. and Entegrus Powerlines Inc. regarding the OEB's November 27, 2025, Decision and Order on issues related to UTRs (November 2025 Decision).¹ The November 2025 Decision directed OEB staff to continue to facilitate the Working Group on UTR matters and tasked the Working Group with:

- i. developing proposals regarding double-peak billing refunds due to unplanned transmission outages
- ii. examining options and developing proposals for a mechanism that will enable double-peak billing refunds for embedded electricity distributors

In your letter, you asked about the next steps with respect to the Working Group. The OEB will contact the Working Group members soon to schedule a kick-off meeting in May 2026. At the meeting, OEB staff will propose a plan to address the above issues.

Yours truly,

Ritchie Murray
Registrar
