Toronto, ON M4P 1E4

Dear Mr. Murray:

**RE: CANADIAN NIAGARA POWER INC.,
2027 COST OF SERVICE RATE-SETTING APPLICATION- EXTENSION REQUEST
EB-2026-0029**

Despite best efforts to meet the April 30th, 2026 deadline for 2027 Cost-of-Service filings for January 1 rates, CNPI is unable to file a complete Application by the required deadline. Multiple factors, particularly unexpected turnover in key project roles, have contributed to delays in the application's progress, despite CNPI's mitigating measures.

CNPI is working diligently to finish and review its Application but respectfully requests a filing extension from the OEB.

CNPI commits to filing its application no later than May 31, 2026 and will make all efforts to submit its filing sooner.

Sincerely,

Oana Stefan
