SUBMIT SECTION

I am a representative of the Party. I have examined all of the documentation in support of this cost claim. The costs incurred and time spent are directly related to the Party's participation in the OEB Process referred to above.

This cost claim does not include any costs for work done, or time spent, by a person that is an employee or officer of the Party as described in section 6.05 and 6.09 of the OEB's Practice Direction on Cost Awards.

The information (fees and disbursements) filed in this cost claim is complete and accurate and in accordance with the OEB's Practice Direction for Cost Awards and Appendix A, the Cost Awards Tariff.

**EB-2025-0064 Enbridge Gas Inc. Rebasing Application Phase 3
Cost Claim for activities to February 17, 2026**

Dear Mr. Murray:

In accordance with OEB direction, please find attached Pollution Probe's Cost Claim for the above-noted proceeding related to activities and related costs to the end of the Settlement Proposal Presentation Day on February 17, 2026. The Cost Claim was created via RESS which includes the information in the attached time docket. Pollution Probe was an active participant for all activities over this period of the proceeding. In addition to the remaining active issues that continue post February 17, 2026, the most significant portion of activities and related costs pertain to the rate issues and related settlement conference that resulted in an OEB approved Settlement Agreement for those issues.

Without disclosing specific confidential details of the settlement process, Pollution Probe believes that the complexity and iterative approach needed over the settlement process is clear based on the outcomes and settlement agreement filed, vs. the starting point prior to the settlement process. That extended settlement process included iterative analysis, stakeholder coordination and trade-offs that were required to achieve the OEB approved Settlement Agreement. The time and effort spent to work through those issues and reach a settlement was a high value process which would have been difficult to achieve in any other approach given the complexity and interactive impacts each change has on other parts of the rates calculations, customer impacts and related policy outcomes.

Respectfully submitted on behalf of Pollution Probe.
