Tillsonburg hydro is service that everyone in town needs there is no other choice so when I hear the town is going to privatize it I hear higher prices and pay cuts for the people they keep. I don't understand why the town would sell something that makes money and provides good paying jobs to our community because if it wasn't making money the private company wouldn't be interested and they are buy into captured customers. If there was more than one choice my thoughts might be different but every time I see this happen it hurts the the people that need the service and makes a few very wealthy.
