Issues:

Energy Probe is concerned about the impacts of the proposals by IESO on the rates paid by its members and supporters, specifically the rate of growth of revenue requirements and the usage fees, and the proposal to retain \$30 million as an operating reserve in the Forecast Variance Deferral Account.

Policy Interests:

Energy Probe does not have any policy interest in this proceeding.

Hearings:

Energy Probe believes that all issues in this case can be resolved by settlement. If a hearing is required it should be in written form.

Evidence:

Energy Probe does not plan to file evidence.

Coordination with Other Intervenors:

Energy Probe plans to coordinate with other intervenors that represent electricity ratepayers to avoid duplication of effort by selecting specific issues and leaving other issues to other intervenors with similar interests.

Cost Awards:

Energy Probe applies for recovery of its reasonably incurred costs during its intervention in this proceeding. Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in OEB proceedings would be limited. Energy Probe's members and supporters are electricity customers and are eligible for an award of costs according to section 3.03(a) of the Practice Directions. Energy Probe has participated in many past regulatory proceedings in Ontario, including consultations, rate cases, and other processes and hearings, and has been found eligible to be paid its reasonably incurred costs.

Language Preference:

Energy Probe does not intend to participate in the hearing using the French language.
