Dear Valerie Bennett:

**Re: Oshawa PUC Networks Inc. (Oshawa PUC Networks)
Application for 2027 Distribution Rate
OEB File Number: EB-2026-0065**

On April 30, 2026, the Ontario Energy Board (OEB) issued a survey letter for 2027 Price Cap IR and Annual IR Index rate applications. In response, Oshawa PUC Networks indicated its intention to file a Price Cap IR application for rates effective January 1, 2027. The application is expected to include an Incremental Capital Module (ICM) funding request of approximately \$61 million for a new consolidated operations building, following the utility's 2026 cost of service application (EB-2025-0014).

In its June 18, 2026 letter, the OEB established tranche assignments and filing deadlines for 2027 Incentive Rate-setting Mechanism applications. Oshawa PUC Networks' Price Cap IR application was assigned to Tranche 1A, with a filing deadline of August 10, 2026.

Given the scale and complexity of Oshawa PUC Networks' proposed ICM funding request, the OEB anticipates that the adjudicative process may require additional time relative to a typical Price Cap IR application. To support an efficient and timely review process for rates effective January 1, 2027, Oshawa PUC Networks should consider whether it is feasible to advance its application filing to a date earlier than the August 10, 2026 deadline.

Any requests for further information should be directed to David Martinello, Director, Electricity Network Applications at 416-440-8142 or David.Martinello@oeb.ca.

Yours truly,

Ritchie
