

LETTER OF COMMENT

Comments:

I do not wish to have any hydro lines, or any other work on or near my property. The rates have gone up several times, and therefore we do not need another hike on our rates, as stated on notice of hearing. It is not justifiable. The notice does not provide proper information as to how my property will be affected. I would like to participate in the process and to be given further info as to how my property will be affected.

Name: Sandra Sampogna

Do you reside in the impacted service area?: Yes

Was AI used for the letter of comment?: No
