RE: Notice of Rate Hearing and increase to Hydro rates Eff. Jan. 1, 2027 of \$6.65 per month plus HST and other delivery costs, which may amount to more than \$90.17+ a year. We just had a 29% increase in 2026 on our hydro rates (WISH we could get a raise to cover this cost) which is becoming too much as we have electric baseboard heat and heat exchangers as we have no gas line on our rural road in the country. We realize upgrades & updates from 50 to 4999KW class have been requested, we work from home and day time hydro use is required and it is very expensive with electricity use these days.
