6.1 PROPOSED REVENUE REQUIREMENT

The 2027 Test Year base revenue requirement is \$7,151,812, as calculated in the OEB's Revenue Requirement Work Form (RRWF).

Table 1 presents the proposed revenue requirement and associated utility income.

6.1.1 Trend Analysis and Change from 2022 Cost of Service

Table 3 presents the change in revenue requirement from the 2022 Board-approved cost of service to the proposed 2027 Test Year.

Table 3 – Change in Revenue Requirement from last COS (2022)

Item	2022 Amount	Change	2027 Amount	Notes / Drivers

Revenue Offset / Other	(\$429,272.40)	(\$334,766.60)	(\$764,039.00)	Higher revenues from specific service charges, late payment charges and other revenue offsets
Total Revenue Requirement Variance		\$2,449,834.19		Net change from 2022 Board-approved to 2027 Test Year revenue requirement
Closing Revenue Requirement (2027 Test Year)			\$7,151,812.15	Reconciles to RRWF

The proposed 2027 base revenue requirement of \$7,151,812 represents an increase of \$2,449,834, or 52.1%, relative to the 2022 Board-approved revenue requirement of \$4,701,978.

The increase is primarily attributable to growth in OM&A expenses, increases in rate base arising from capital investments completed since the last rebasing application, and the associated increase in the return on capital. OM&A expenses increased by \$1.32 million and are discussed in detail in Exhibit 4. Rate base increased by \$9.68 million, reflecting growth in net fixed assets and working capital, as described in Exhibit 2. The resulting impacts on depreciation expense, deemed interest expense, and return on equity are discussed in Exhibit 5. In addition, the 2027 Test Year includes PILs expense of \$175,565, which was not included in the 2022 Board-approved revenue requirement.

Table 4 provides a summary of the principal drivers contributing to the change in revenue requirement between the 2022 Board-approved level and the 2027 Test Year.

6.2 REVENUE DEFICIENCY OR SURPLUS

6.2.1 Calculation of Revenue Deficiency or Sufficiency

LUI is in a revenue deficiency position for the 2027 Test Year. The revenue deficiency represents the difference between the 2027 revenue requirement and the revenues that would be generated under existing rates using the 2027 load forecast.

Based on the approved customer forecast and billing determinants, revenues generated under current rates are projected to be approximately \$6.16 million. To recover the proposed 2027 revenue requirement, distribution revenues must increase to approximately \$7.15 million, resulting in a revenue deficiency of approximately \$987,000.

Tables 5 and 6 present the projected distribution revenues at current and proposed rates, respectively, using the 2027 Test Year load forecast. Table 7, reproduced from the Revenue Requirement Work Form (RRWF), summarizes the calculation of the revenue deficiency and the resulting rate adjustment required to recover the proposed revenue requirement.

The increase in distribution revenue is primarily recovered through adjustments to fixed monthly charges and variable distribution rates. The allocation of the revenue requirement among customer classes is discussed further in Exhibit 7.)

6.2.2 Causes of Revenue Deficiency

The increase in LUI's 2027 Base Revenue Requirement from \$4.70 million in 2022 to \$7.15 million in the 2027 Test Year is primarily attributable to growth in OM&A expenses, rate base, and the associated return on capital. OM&A accounts for approximately 54.0% of the increase in revenue requirement and reflects inflationary pressures, compensation adjustments, shared service costs, vegetation management, cybersecurity initiatives, engineering support, and other operational requirements discussed in Exhibit 4.

Capital investments made between 2022 and 2027 increase rate base and contribute to higher depreciation expense and regulated return on capital, which together account for approximately 52.4% of the increase in revenue requirement. Changes in PILs also contribute to the increase in revenue requirement. These increases are partially offset by higher revenue offsets.

6.3 TAXES & PAYMENTS IN-LIEU OF TAXES (PILS)

Lakefront Utilities Inc. (“Lakefront”) has used the OEB’s PILs Tax Work Form to calculate income taxes for inclusion in its revenue requirement. The PILs model has been prepared in accordance with MIFRS and applicable federal and provincial income tax legislation.

Lakefront files federal and provincial corporate income tax returns annually and confirms that there are no outstanding audits, reassessments, or material tax disputes that would affect the amounts included in this Application. Lakefront has applied the stand-alone principle in determining PILs.

The PILs model reflects actual tax information for the 2025 Historical Year, forecast information for the 2026 Bridge Year, and projected information for the 2027 Test Year. The 2025 year is a projected tax filing position, and Lakefront’s final 2025 federal and provincial income tax returns will be filed by June 30, 2026.

For the 2025 Historical Year, Lakefront recorded regulatory taxable income of \$782,244 and a PILs provision of \$207,295.

For the 2026 Bridge Year, Lakefront forecasts regulatory loss of \$48,193 and PILs provision of \$0.

For the 2027 Test Year, Lakefront forecasts regulatory taxable income of \$588,463. Applying the applicable Ontario and federal income tax rates, including the small business deduction where applicable and bridge year loss carry forward of \$48,193, results in provincial taxes payable of \$49,623 and federal taxes payable of \$75,221, for total PILs of \$124,845. After application of the OEB gross-up methodology, the resulting income tax amount included in the revenue requirement is \$158,463.

Detailed calculations of taxable income and PILs are provided in the OEB PILs model filed with this Application. Lakefront is not claiming Apprenticeship Training Tax Credits. All adjustments required to reconcile accounting income to taxable income are reflected in the PILs model.

6.3.1 Other Taxes and Non- Recoverable and Disallowed Expenses

Lakefront confirms that expenses deemed non-recoverable in the revenue requirement, or otherwise disallowed for regulatory purposes, have been excluded from the regulatory tax calculation.

Lakefront acknowledges that Account 6105 represents non-operating or regulatory adjustment items and has been excluded from OM&A totals and from the determination of regulatory taxable income.

6.3.2 Accelerated CCA

Lakefront has reviewed the impact of federal accelerated capital cost allowance provisions, including the Accelerated Investment Incentive Program (AIIP), on its PILs calculations and associated regulatory deferral accounting.

As part of Lakefront's 2022 Cost of Service proceeding (EB-2021-0039), and the decision that forecast PILs would reflect the application of accelerated CCA, and the resulting impacts were incorporated into approved rates.

For the 2022 taxation year, accelerated CCA embedded in rates was consistent with actual tax treatment, and no new principal movement was recorded in Account 1592. Activity in 2022 was limited to the continuation of the opening balance and associated interest.

Account 1592 was initially established in 2021 to capture timing differences between rate-embedded accelerated CCA and actual CCA deductions available under tax legislation. This resulted in an initial credit balance to ratepayers, which has been carried forward through subsequent years.

In 2023, the account continued to reflect the outstanding 2021-origin balance, with activity limited to interest accrual on the existing balance and no new principal movement.

In 2024, changes in accelerated CCA treatment resulted in differences between rate-embedded assumptions and actual CCA deductions, resulting in additional principal impacts to Account 1592.

In 2025, accelerated CCA treatment was consistent with current federal tax legislation. The year reflects continued movement in Account 1592 arising from prior-year balances and current-year timing differences. As at December 31, 2025, the Account 1592 principal balance is a net credit of (\$20,870), with a related interest sub-account balance of (\$6,169).

Lakefront confirms that the 2027 Test Year PILs model reflects current legislation and forecast tax treatment. No separate recovery from or refund to ratepayers related to accelerated CCA is proposed beyond the amounts reflected in the PILs model and the ongoing disposition of Account 1592 balances.

A workbook to that effect is filed with this application.

6.3.3 PILs Integrity Check

Lakefront confirms that the PILs model has been completed in accordance with the OEB's Minimum Filing Requirements and that all required integrity checks have been satisfied.

In particular:

- Depreciation and amortization added back in the PILs model agree with the amounts presented in the rate base section of this Application.
- Capital additions and deductions reflected in the UCC/CCA schedules are consistent with the rate base for the historical, bridge, and test years.
- The closing UCC balances from the most recent federal T2 income tax return reconcile to the opening balances used in the bridge year.
- CCA deductions in the PILs model are consistent with the UCC schedules filed in support of the Application.
- Any tax loss carryforwards reflected in the tax returns are consistent with those applied in the PILs model.
- CCA has been maximized for regulatory purposes, consistent with OEB policy and applicable tax legislation.

The PILs model reflects 2025 Historical Year PILs of \$207,295, 2026 Bridge Year PILs of \$23,122, and 2027 Test Year PILs of \$137,616, resulting in a grossed-up income tax provision of \$175,565 for inclusion in the Test Year revenue requirement.

6.4 OTHER REVENUE

Other Distribution Revenues are distribution-related revenues but are sourced from means other than distribution rates. As these revenues are recovered from sources other than distribution rates, they are deducted from LUI's revenue requirement

Other Distribution Revenues include items such as:

- Specific Service Charges
- Late Payment Charges
- Other Distribution Revenues
- Other Income and Expenses

Table 8 provides Appendix 2-H listing the Other Revenue accounts. Detailed breakdowns of material accounts are provided in Tables 9 through 13

Year-over-year variance analysis over the materiality threshold of \$50,000 follows at Section 6.4.1 - Other Revenue Variance Analysis.

6.4.1 Other Revenues Variance Analysis

LUI offers the following explanations for variances over \$50,000. Noteworthy variances between are explained below.

Table below present year over-year variances of other operating revenues:

Table 9 - Absolute Variance Analysis of Other Operating Revenues

USoA	Description	2023 vs 2022	2024 vs 2023	2025 vs 2024	2026 vs 2025	2027 vs 2026
4210	Rent from Electric Property		+130,945	-262,148	+133,139	
4235	Miscellaneous Service Revenues	+225,225	-561,148	+362,865		
4340	Profits and Losses from Financial Instrument Investments		-63,680	+70,606		
4405	Interest and Dividend Income	-58,584	-89,746	+74,128	+136,020	

Note: Positive variances represent reductions in revenue (less negative balances), while negative variances represent increases in revenue.

The material variances shown above are primarily attributable to fluctuations in miscellaneous service revenues, rental revenues, investment-related income, and interest income. Several of these variances relate to non-recurring events or changing market conditions and are not expected to continue in the forecast period. Forecast amounts included in the Bridge Year and Test Year generally reflect normalized activity levels and current expectations.

The following discussion explains material year-over-year variances in Other Revenues exceeding \$50,000.

4210 – Rent from Electric Property

Table 10 – Breakdown of Account 4210 Rent from Electric Property

Description	2022	2023	2024	2025	2026	2027
Pole attachment / telecom lease	(\$109,547)	(\$136,936)	(\$5,991)	(\$268,139)	(\$135,000)	(\$135,000)
Other rental income	0	0	0	0	0	0
Total	(\$109,547)	(\$136,936)	(\$5,991)	(\$268,139)	(\$135,000)	(\$135,000)
RRR Integrity Check	(\$109,547)	(\$136,936)	(\$5,991)	(\$268,139)	(\$135,000)	(\$135,000)

The revenues recorded in this account relate primarily to pole attachment and telecommunications lease agreements.

Revenue levels were relatively consistent in 2022 and 2023, averaging approximately \$123,000 per year. The unusually low revenue recorded in 2024 and corresponding increase in 2025 are attributable to a timing issue in revenue recognition. Revenue that would normally have been recorded in 2024 was recognized in 2025, resulting in a catch-up adjustment in that year.

As a result:

- 2024 vs. 2023 (-\$130,945): Revenue decreased due to the timing of revenue recognition, resulting in significantly lower revenues being recorded in 2024.
- 2025 vs. 2024 (+\$262,148): Revenue increased due to the catch-up recognition of amounts relating to both 2024 and 2025.

The combined revenue recorded in 2024 and 2025 averages approximately \$137,000 annually, which is consistent with historical levels and supports the forecast amounts of \$135,000 included for both the 2026 Bridge Year and 2027 Test Year.

4235 – Miscellaneous Service Revenues

Table 11 – Breakdown of Account 4235 Miscellaneous Service Revenues

Description	2022	2023	2024	2025	2026	2027
Specific Service charges	(\$54,525)	(\$62,682)	(\$69,354)	(\$53,660)	(\$55,336)	(\$56,996)
Contributions	(\$121,753)	(\$138,189)	(\$172,388)	(\$208,513)	(\$237,308)	(\$272,804)
Recoverable work	(\$41,583)	(\$32,974)	(\$42,191)	(\$99,721)	(\$101,120)	(\$104,154)
Misc. revenue	(\$0)	\$33,720	(\$424,618)	(\$2,868)	(\$2,954)	(\$3,043)
Actuary costs	(\$173,843)	\$33,648	(\$19,076)	(\$0)	(\$0)	(\$0)
Total	(\$391,704)	(\$166,479)	(\$727,627)	(\$364,762)	(\$396,719)	(\$436,998)
RRR Integrity Check	(\$391,704)	(\$166,479)	(\$727,627)	(\$364,762)	(\$396,719)	(\$436,998)

Miscellaneous Service Revenues consist primarily of specific service charges, customer contributions, recoverable work, miscellaneous revenues, and actuarial-related recoveries.

The primary driver of the 2024 variance was a one-time DVA Power and Global Adjustment reconciliation adjustment of approximately \$425,000 recorded in Miscellaneous Revenue.

- 2023 vs. 2022 (+\$225,225): The variance is primarily attributable to a reduction in actuarial-related recoveries recorded in this account compared to the prior year. Beginning in 2025, actuarial costs associated with post-retirement benefits are recorded in Account 5646.
- 2024 vs. 2023 (-\$561,148): The variance is primarily attributable to one-time DVA Power and Global Adjustment reconciliation entries recorded in 2024, together with year-over-year changes in actuarial-related recoveries.
- 2025 vs. 2024 (+\$362,865): The variance is primarily attributable to the absence of the one-time DVA Power and Global Adjustment reconciliation entries recorded in 2024.

Forecast revenues for the Bridge Year and Test Year reflect ongoing customer contributions, recoverable work, and miscellaneous service revenues and do not include the impact of non-recurring DVA reconciliation entries.

4405 – Interest and Dividend Income

Table 12 – Breakdown of Account 4405 – Interest and Dividend Income

Description	2022	2023	2024	2025	2026	2027
DVA accounts interest	(\$61,490)	(\$110,081)	(\$204,813)	(\$134,113)	(\$5,328)	(\$3,996)
Bank and customer interest	(\$5,656)	(\$15,649)	(\$10,663)	(\$7,235)	(\$0)	(\$0)
Total	(\$67,143)	(\$125,730)	(\$215,476)	(\$141,348)	(\$5,328)	(\$3,996)
RRR Integrity Check	(\$67,146)	(\$125,730)	(\$215,476)	(\$141,348)	(\$5,328)	(\$3,996)

Interest and Dividend Income consist primarily of carrying charges associated with DVA balances and interest earned on cash balances and customer accounts.

- 2023 vs. 2022 (-\$58,584): The increase in revenue is primarily attributable to higher carrying charges calculated on DVA asset balances.
- 2024 vs. 2023 (-\$89,746): The increase in revenue is primarily attributable to a one-time interest correction associated with the 2016–2023 DVA Power and Global Adjustment reconciliation entries recorded in 2024.
- 2025 vs. 2024 (+\$74,128): Revenue decreased due to the absence of the one-time interest correction recorded in 2024.
- 2026 vs. 2025 (+\$136,020): Revenue decreased due to the anticipated disposition and reduction of DVA balances, resulting in significantly lower carrying charge revenues.

As DVA balances are expected to decline following disposition, forecast interest revenues in the Bridge Year and Test Year are substantially lower than historical levels.

4340 – Profits and Losses from Financial Instrument Investments

Table 13 – Breakdown of Account 4340 – Profits and Losses from Financial Instrument Investments

Description	2022	2023	2024	2025	2026	2027
Investment Gain/Loss Category	0	(\$22,114)	\$85,794	(\$15,188)	0	0
Total	0	(\$22,114)	\$85,794	(\$15,188)	0	0
RRR Integrity Check	0	(\$22,114)	\$85,794	(\$15,188)	0	0

This account reflects annual mark-to-market adjustments provided by TD Bank on outstanding loan instruments. The valuation is based on prevailing market interest rates relative to the contractual interest rates associated with the loans.

2024 vs. 2023 (-\$63,680)

The profits and losses from financial instrument investments is the valuation of the bank loans based on the year end market rates vs the book value of the loans. The loan valuation report is provided by TD bank and is called the Mark to Market valuation. The 2024 valuation is unfavourable due the market interest rates being more favourable than the loan interest rates.

2025 vs. 2024 (+\$70,606)

The 2025 valuation is favourable due the market interest rates being less favourable than the loan interest rates.

6.4.2 Proposed Specific Service Charges

LUI does not propose any changes or new Specific Service Charges beyond those previously approved by the OEB, except for the annual update to pole attachment charges in accordance with OEB direction. The Specific Service Charges are provided at Exhibit 8.6.2.

LUI confirms that forecast amounts for Other Operating Revenues, including Miscellaneous Service Revenues and Other Electric Revenues, are based on historical activity levels and reflect the continuation of existing charges as approved by the OEB.

Wireline Pole Attachment Charges

Pole attachment charges are updated annually in accordance with OEB-issued orders. As of June 19, 2025 (EB-2025-0200), the 2026 distribution pole attachment charge is set at \$40.59 per attached, per pole, per year, effective January 1, 2026. LUI has used this charge as a basis for these revenues.

LUI no longer records a variance related to differences between previously approved and updated pole attachment rates as rates are updated yearly through yearly IRM mechanism.

MicroFIT Monthly Service Charge

LUI is not proposing any change to the microFIT Monthly Service Charge of \$5, as approved in its 2022 Cost of Service application.

LUI has reviewed its microFIT-related costs and revenues and has determined that no adjustment to the charge is required. microFIT revenues are included within Other Operating Revenues and are not a material driver of overall revenue trends. MicroFIT revenues are recorded as a revenue offset in Miscellaneous Service Revenues (4235) in accordance with OEB requirements.

6.4.3 Revenue from Affiliate Transactions, Shared Services, Corporate Cost Allocation.

LUI receives shared administrative, operational, billing, engineering, and management services from LUSI. The costs associated with these services are allocated to LUI and recorded directly in the applicable OM&A accounts. Details of these arrangements, including the allocation methodology and amounts charged, are provided in Appendix 2-N and Exhibit 4.

In addition, LUI records rental revenue from its affiliate, LUSI, related to office space at the Division Street property. This revenue is recorded in Account 4205 – Rent from Electric Property.

LUI does not record affiliate revenues in Account 4375 – Revenues from Non-Rate Regulated Activities or affiliate expenses in Account 4380 – Expenses of Non-Rate Regulated Activities. Accordingly, Accounts 4375 and 4380 contain nil balances related to affiliate activities for the historical, bridge, and test years.

LUI confirms that its transfer pricing and cost allocation methodologies are consistent with Article 340 of the Accounting Procedures Handbook and do not result in cross-subsidization between regulated and non-regulated activities.

June 26, 2026

Dear Mr. Paul:

CORPORATE INCOME TAX RETURNS

We have prepared and enclose the corporate income tax return(s) (the "Returns") of Lakefront Utilities Inc. (the "Company") for the taxation year ended December 31, 2025.

- ☒ T2 – *Corporation Income Tax Return* - EXEMPT
- ☒ T183 - *Information Return for Corporations Filing Electronically*
(Federal - to be e-filed with CRA) - EXEMPT
- ☒ T2 – *Corporations Income Tax Return* (to be filed with Ministry of Finance) - PILS
- ☒ Instalment Schedule
- ☒ Client copy for your records

We have prepared these Returns based on our understanding of and reliance upon the facts, data, materials, assumptions and other information (collectively, the "Information") provided to us by the Company and/or its representatives, and we have not independently investigated or verified the accuracy or completeness of such Information. We accept no responsibility or liability for any errors attributable to our reliance upon inaccurate or incomplete Information. We recommend that you carefully review the Returns in their entirety to ensure that all of the relevant Information is correctly and completely disclosed.

Note that taxable dividends received by a corporation resident in Canada that are otherwise tax-deductible in computing taxable income under Part I of the Income Tax Act (the “intercorporate dividends”) may be re-characterized, under the anti-avoidance rule in subsection 55(2) of the Income Tax Act, as capital gains that are subject to tax if, in general terms, (i) the dividend exceeds safe income that is contributing to a gain on the share on which the dividend was paid and (ii) one of the purposes of the payment or receipt of the dividend is described in subsection 55(2.1).

You have advised us that there is sufficient safe income to support the position that the anti-avoidance rule does not apply to the intercorporate dividends reported in the Returns. The safe income exception to the application of subsection 55(2) applies only to the extent of an accrued gain on the shares of the dividend payer (i.e., to the extent that the fair market value of the shares on which the dividend was paid exceeded their adjusted cost base at the time of the dividend payment). If a dividend paid by the Company exceeded such gain, if any, or if there is no gain, the excess may be re-characterized as a capital gain to the dividend recipient subject to tax under subsection 55(2) (unless none of the purposes in subsection 55(2.1) are present).

Any balances owing must be remitted by the due date (as set out in the Filing Instructions), or as soon as possible, if interest charges are to be minimized.

KEY TAX ATTRIBUTES SUMMARY

We are pleased to provide you with select key tax information on the *Corporate Tax Return - Key Tax Attributes Summary*. This document lists key amounts and carryforward balances from the Returns and may assist in identifying future potential tax planning opportunities.

FOREIGN AFFILIATE REPORTING REQUIREMENTS

Foreign affiliate reporting rules require a taxpayer who is a Canadian resident corporation to file a federal information return (Form T1134 - *Information Return Relating to Controlled and Non-Controlled Foreign Affiliates*) if a non-resident corporation is a foreign affiliate of the taxpayer at any time in the year. Failure to file the information return, which includes both the T1134 Summary and Supplements, may result in substantial penalties being assessed by the Canada Revenue Agency (CRA). Generally, a foreign affiliate is a non-resident corporation whose shares are owned by a Canadian resident taxpayer or partnership as follows:

- at least 1% is owned directly or indirectly by the Canadian resident taxpayer; and
- at least 10% is owned directly or indirectly by the Canadian resident taxpayer and related persons.

The CRA provides an administrative exception to filing the T1134 supplement in respect of a foreign affiliate where the Canadian resident taxpayer’s total cost amount at any time in the year of interests in that foreign affiliate was less than \$100,000 and the foreign affiliate is “dormant” or “inactive”, meaning that the foreign affiliate:

- had gross receipts (including both income receipts and non-income receipts such as proceeds from the disposition of property or receipt of loan proceeds) of less than \$100,000 in the year; and
- at no time in the year had assets with a total fair market value of more than \$1,000,000.

Only base level information is required to be reported for foreign affiliates that meet the administrative exemption above.

Our review of the Company's investments indicates that the Company is not required to file a T1134 return for its taxation year ended December 31, 2025. However, should you have any questions regarding a particular investment, please contact us as soon as possible so that we can review our findings and, if necessary, assist you in preparing the information return so that it can be filed within the statutory 10-month period following the Company's year end.

The T1134 return must be filed within 10 months of the Company's year-end. The CRA revised the T1134 form which now includes additional questions and requires significantly more details than requested in the past. In particular, the questions pertaining to upstream loans, foreign affiliate dumping and elections regarding the ordering of surplus distributions are onerous. Furthermore, it is very important that companies have up to date surplus calculations. If the corporation does not maintain surplus calculations in support of the dividend deduction claimed, CRA has indicated that the deduction could be disallowed. If you have any further questions about how these changes affect your Company or would like to engage KPMG to assist with your adjusted cost base and surplus calculations, please contact us, and we would be pleased to discuss them with you.

FOREIGN PROPERTY

The information return, which reports the Company's specified foreign property, is Form T1135 - *Foreign Income Verification Statement*. Form T1135 should be completed if at any time during the taxation year 2025 the total cost of all specified foreign property the Company owned or held a beneficial interest in was more than Cdn\$100,000.

According to the information you have provided to us, the Company did not hold specified foreign property at any time in the taxation year 2025 with a total cost of more than Cdn\$100,000. As such, we have **not** marked an X in box 259 on page 3 of your return and **we have not completed the Form T1135**. If the information on specified foreign property is incorrect, please let us know immediately.

Should Form T1135 be required, it is due by **June 30, 2026**. The implications of late filing and/or failure to properly report specified foreign property on the Form T1135 and failure to report income from a specified foreign property on your income tax return are substantial. They include significant penalties and an increase to the normal reassessment period by an additional 3 years. Further, the reassessment period extension would impact otherwise statute-barred tax years and would impact the entire income tax return, not just the foreign income and reporting sections.

BEPS - GLOBAL MINIMUM TAX (CANADA)

On June 20, 2024, Canada enacted the Global Minimum Tax Act (the "GMTA") to implement the OECD's Pillar Two global minimum tax framework in Canada. The GMTA generally applies to qualifying multinational enterprise groups with consolidated revenue of at least €750 million (in two of the previous four years) and applies for fiscal years beginning on or after December 31, 2023. Elective transitional safe harbour relief may be available for the initial implementation period in certain circumstances.

The GMTA also introduces significant new compliance, reporting, and disclosure requirements for in-scope groups. These may include registrations for a CRA global minimum tax program account, as well as new prescribed returns and/or notification filings. These requirements are separate from the annual Canadian corporate income tax return. Global minimum tax legislative, administrative, reporting and/or compliance requirements may also apply in foreign jurisdictions in which in-scope groups have a presence.

KPMG has not been engaged to assist with the Pillar Two notification(s), nor any prescribed returns to be filed in Canada.

Please contact us if you have any questions or concerns about how the Pillar Two rules may apply to your situation.

ANNUAL INFORMATION RETURN FOR ONTARIO CORPORATIONS

Corporations incorporated, continued, or amalgamated in Ontario and subject to the Ontario Business Corporations Act or the Ontario Corporations Act, excluding registered charities under the federal Income Tax Act, must update their information annually. The Ontario Ministry of Government Services (MGS) public records are required to contain accurate and complete information. As of May 15, 2021, the CRA no longer accepts the filing of these annual returns. Corporations must now use the Ontario Business Registry to file their annual information returns, as the province's temporary filing exemption has expired. Corporations must file their annual information returns due on October 19, 2021 or later by their respective due dates using the new system. The Ontario annual information return continues to be due 6 months after year-end, for returns due on or after October 19, 2021. As an alternative to filing their own annual information return, a corporation can use an intermediary such as KPMG to complete and file the return. If the corporation is using a registered intermediary, then the corporation will not have to register with the new Ontario Business Registry.

If you have any questions about the Ontario annual information returns or the recent filing changes, please contact us and we would be pleased to discuss them further.

GENERAL RATE INCOME POOL ("GRIP")

Shareholders receiving eligible dividends as compared to non-eligible dividends, are subject to a reduced rate of income tax. Eligible dividends are paid out of the Company's GRIP balance, which at December 31, 2025 is estimated to be \$6,674,530. The supporting calculation is summarized in Schedule 53 of the federal corporate tax return.

In addition, designation of eligible dividends is required, with each shareholder recipient being formally notified in writing at time of payment.

The Company did not designate the payment of an eligible dividend for the current taxation year.

CRS AND FATCA REPORTING REQUIREMENTS

Certain Canadian entities are required to report to the Canada Revenue Agency annually on any account holders determined to be Specified US persons under *Part XVIII - Enhanced International Information Reporting* of the Canadian *Income Tax Act* (the Canadian implementation of the US *Foreign Account Tax Compliance Act*, commonly referred to as “FATCA”).

Certain Canadian entities are also required to report to the Canada Revenue Agency annually on any account holders determined to be tax residents of countries other than Canada or the United States under *Part XIX - Common Reporting Standard* of the Canadian *Income Tax Act* (commonly referred to as the “CRS”).

Please contact us if you have any questions about responding to a request from a financial institution to certify your FATCA or CRS status, or determining whether you are subject to the due diligence and reporting requirements under the CRS or FATCA.

PROPOSED TAX CHANGES

The Company's tax Returns have been prepared taking into account certain proposals to amend the federal and provincial tax statutes which have been publicly announced to date in budgets and other government releases as being applicable to the Company's current taxation year, even though the proposals may not yet be enacted. If the proposed amendments are not enacted as announced, these tax returns could be reassessed and may result in an underpayment of tax, and possible interest and penalties. If you receive an assessment or reassessment for these tax returns that does not agree with the returns filed, it is important that you notify us so that we can determine if any action needs to be taken.

EIFEL INTEREST DEDUCTIBILITY LIMITATIONS

The Excessive Interest and Financing Expenses Limitation (EIFEL) rules apply for taxation years beginning on or after October 1, 2023, and were enacted to limit the deductibility of net interest and financing expenses deductible for Canadian income tax purposes.

Where applicable the EIFEL rules generally restrict deductible net interest and financing expenses to a fixed ratio of “adjusted taxable income” of 40% for taxation years beginning on or after October 1, 2023, and before January 1, 2024, and 30% for all taxation years beginning on or after January 1, 2024. The EIFEL rules contain several election provisions that may allow for alternative tax treatment if the required conditions are met. The EIFEL rules also introduce additional compliance, reporting, and disclosure requirements for affected taxpayers, including the completion of prescribed forms or schedules where the taxpayer is subject to the rules or is party to an EIFEL election.

Please contact us if you have any questions or concerns about how the EIFEL rules may apply to your situation.

KPMG has reviewed the application of the EIFEL rules for the taxation year based on the information and data provided by you. Based on our review, no related adjustments have been reflected in the tax return.

INSTALMENTS

We have prepared and enclose an estimate of tax instalments as applicable for the Company for the taxation year ending on December 31, 2026. The amounts were computed with reference to the Company's taxable income, taxable capital and income taxes payable for prior years. If during the year it is evident that the taxable income or taxable capital for the current year will be substantially less than for the previous taxation year, your instalments may be recalculated. Please call your KPMG advisor in order that we may determine what course of action should be taken.

In order to avoid interest charges, the tax authorities must receive the instalment payments no later than the date indicated on the attached schedule.

T2 – T183 – INFORMATION RETURN FOR CORPORATIONS FILING ELECTRONICALLY (FEDERAL-EXEMPT)

In order for us to electronically file the Company's corporate exempt income tax return, a signed copy of Form T183CORP – *Information Return for Corporations Filing Electronically* must be returned to us. Please note that we will not electronically file the Company's corporate income tax return until we receive the signed Form T183 Corp.

The Form T183CORP – *Information Return for Corporations Filing Electronically* includes information from your Company's income tax return and all applicable schedules.

Signature

Form T183CORP – *Information Return for Corporations Filing Electronically* should be completed and signed

No amount is payable for the **2025** taxation year.

Mailing

One copy of the signed Form T183 Corp should be returned to KPMG by fax at (613) 549-6349, as soon as possible, no later than June 30, 2026, in order to have the Company's Return filed on or before the due date for filing. **We will not electronically file the Return until we receive a copy of the signed T183CORP.** The Form T183CORP must **not** be sent to the CRA.

T2 – CORPORATION INCOME TAX RETURN - MINISTRY OF FINANCE

Signature

Form T2, the certification section on page 9 should be completed and signed.

Enclosure

A cheque in the amount of **\$218,869** made payable to the Minister of Finance should be attached to the return for the **2025** taxation year. You should write the company's tax account number on the back of the cheque and the taxation year for which the payment is made. Alternatively, you may make the payment at any branch of a chartered bank.

Mailing

One copy of the Return and one copy of the Company's financial statements must be **received** by The Ministry of Finance, HYDRO PIL DIVISION, PO Box 620, 33 King Street West, Oshawa, ON, L1H 8E9 no later than **June 30, 2026**. For greater certainty, KPMG will not be mailing this Return.

NOTICES OF ASSESSMENT

If the Company receives a Notice of Assessment which does not agree with a return as prepared by us, please contact us so that we can determine whether any action should be taken. The Company has only a limited number of days from the date of mailing of the Assessment in which to object. Failure to respond within the prescribed time limit will cause the Company to lose its right to object to the Assessment.

If you have any questions concerning these Returns, or if we may be of any further assistance, please feel free to contact the undersigned.

Yours truly,

Pursuing any potential opportunities that may be identified through a review of the Key Tax Attributes Summary is outside the scope of any existing engagement letter with KPMG. Should you wish to pursue any potential opportunities we would be pleased to meet with you to discuss your needs and then provide you with a new tax advisory engagement letter detailing the scope of services and fees agreed upon in further pursuing such potential opportunities. KPMG will take no further action with respect to any potential opportunities, except as specifically engaged to do so by you pursuant to a tax advisory engagement letter.

All of the amounts included on this schedule are based on what the Company has reported in its current income tax return. Before any planning is undertaken certain amounts will need to be confirmed with the relevant tax authorities.

The following is a list of instalments payable for the current taxation year, and the last column indicates the instalments payable to the Canada Revenue Agency (CRA). The instalments must be paid on each of the dates indicated below, otherwise non-deductible interest might be charged.

You can pay using one of the methods listed at **canada.ca/payments**. However, when a remittance must mandatorily be made using electronic means, use one of the following electronic payment methods:

- a Canadian financial institution's services;
- the CRA's *My Payment* service, at **canada.ca/cra-my-payment**;
- a pre-authorized debit agreement set up in the CRA's *My Business Account* service, at **canada.ca/my-cra-business-account**;
- a wire transfer.

Corporation's name Lakefront Utilities Inc.	Business number 86512 5231 RC0001	Tax year-end Year Month Day 2025-12-31
--	--------------------------------------	--

- Corporations need to complete all parts of this schedule that apply and include it with their T2 return along with their other GIFI schedules.
- For more information, see Guide RC4088, General Index of Financial Information (GIFI), and Guide T4012, T2 Corporation – Income Tax Guide.

Part 1 – Information on the person primarily involved with the financial information

Can you identify the person* specified in the heading of Part 1? **111** Yes ☒ No ☐
If you answered **no**, go to Part 2.

Does that person have a professional designation in accounting? **095** Yes ☒ No ☐

Is that person connected** with the corporation? **097** Yes ☐ No ☒

* A person primarily involved with the financial information is a person who has more than a 50% involvement in preparing the financial information that the T2 return is based on. For example, if three persons prepared the financial information by doing respectively 30%, 30%, and 40% of the work, answer **no** at line 111. If they did respectively 10%, 20%, and 70% of the work, answer **yes** at line 111 and complete Part 1 by referring only to the third person.

** A person connected with a corporation can be: (i) a shareholder of the corporation who owns more than 10% of the common shares; (ii) a director, an officer, or an employee of the corporation; or (iii) a person not dealing at arm's length with the corporation.

Part 2 – Type of involvement

Choose one or more of the following options that represent your involvement and that of the person referred to in Part 1:

Completed an auditor's report **300** ☒
Completed a review engagement report **301** ☐
Conducted a compilation engagement **302** ☐
Provided accounting services **303** ☐
Provided bookkeeping services **304** ☐
Other (please specify) **305** Preparation of T2

Part 3 – Reservations

If you selected option 1 (300) or 2 (301) in Part 2 above, answer the following question:

Has the person referred to in Part 1 expressed a reservation? **099** Yes ☐ No ☒

Part 4 – Other information

Were notes to the financial statements prepared? **101** Yes ☒ No ☐
Did the corporation have any subsequent events? **104** Yes ☐ No ☒
Did the corporation re-evaluate its assets during the tax year? **105** Yes ☐ No ☒
Did the corporation have any contingent liabilities during the tax year? **106** Yes ☐ No ☒
Did the corporation have any commitments during the tax year? **107** Yes ☒ No ☐
Does the corporation have investments in joint venture(s) or partnership(s)? **108** Yes ☐ No ☒

Part 4 – Other information (continued)**Impairment and fair value changes**

In any of the following assets, was an amount recognized in net income or other comprehensive income (OCI) as a result of an impairment loss in the tax year, a reversal of an impairment loss recognized in a previous tax year, or a change in fair value during the tax year?

200 Yes ☐ No ☒

If **yes**, enter the amount recognized:

In net income
Increase (decrease)

In OCI
Increase (decrease)

Property, plant, and equipment	210		211

Charitable Donations and Gifts

Corporation's name	Business number	Tax year-end Year Month Day
Lakefront Utilities Inc.	86512 5231 RC0001	2025-12-31

- For use by corporations to claim any of the following:
 - the eligible amount of charitable donations to qualified donees
 - the Ontario, Nova Scotia, and British Columbia food donation tax credits for farmers
 - the eligible amount of gifts of certified cultural property
 - the eligible amount of gifts of certified ecologically sensitive land or
 - the additional deduction for gifts of medicine made before March 22, 2017
- All legislative references are to the federal Income Tax Act, unless stated otherwise.
- The eligible amount of a gift is the amount by which the fair market value of the gifted property exceeds the amount of an advantage, if any, for the gift.
- The donations and gifts can be carried forward for 5 years except for gifts of certified ecologically sensitive land made after February 10, 2014, which can be carried forward for 10 years.
- Use this schedule to show a transfer of unused amounts from previous years following an amalgamation or the wind-up of a subsidiary as described under subsections 87(1) and 88(1).
- Subsection 110.1(1.2) provides as follows:
 - Where a particular corporation has undergone an acquisition of control, for tax years that end on or after the acquisition of control, no corporation can claim a deduction for a gift made by the particular corporation to a qualified donee before the acquisition of control.
 - If a particular corporation makes a gift to a qualified donee pursuant to an arrangement under which both the gift and the acquisition of control is expected, no corporation can claim a deduction for the gift unless the person acquiring control of the particular corporation is the qualified donee.
- An eligible medical gift made before March 22, 2017, to a qualifying organization for activities outside of Canada may be eligible for an additional deduction. Calculate the additional deduction in Part 5.
- File this schedule with your T2 Corporation Income Tax Return.
- For more information, see the T2 Corporation – Income Tax Guide.

Corporation Loss Continuity and Application

Corporation's name	Business number	Tax year-end Year Month Day
Lakefront Utilities Inc.	86512 5231 RC0001	2025-12-31

- Use this form to determine the continuity and use of available losses; to determine a current-year non-capital loss, farm loss, restricted farm loss, limited partnership loss, or restricted interest and financing expense; to determine the amount of restricted farm losses, limited partnership losses, and restricted interest and financing expenses (RIFE) that can be applied in a year; and to ask for a loss carryback to previous years.
- A corporation can choose whether or not to deduct an available loss from income in a tax year. The corporation can deduct losses in any order. However, for each type of loss, deduct the oldest loss first.
- All legislative references are to the federal Income Tax Act.
- According to subsection 111(4), when control has been acquired, no amount of capital loss incurred in a tax year ending before that time is deductible when calculating taxable income for a tax year ending after that time. Also, no amount of capital loss incurred in a tax year ending after that time is deductible when calculating taxable income for a tax year ending before that time.
- When control has been acquired, subsection 111(5) provides for similar treatment of non-capital and farm losses except as listed in paragraphs 111(5)(a) and (b), and of RIFE except as listed in paragraph 111(5)(a).
- For information on these losses, see Guide T4012, T2 Corporation – Income Tax.
- File this schedule with the T2 Corporation Income Tax Return, or send the schedule by itself to the tax centre where the return is filed.

In the case of the wind-up of a subsidiary, if the election is made, the non-capital loss, restricted farm loss, farm loss, or limited partnership loss of the subsidiary—that otherwise would become the loss of the parent corporation for a particular tax year starting after the wind-up began—will be considered as the loss of the parent corporation for its immediately preceding tax year and not for the particular year.

Note
This election is only applicable for wind-ups under subsection 88(1) that are reported on Schedule 24, First-Time Filer after Incorporation, Amalgamation, or Winding-up of a Subsidiary into a Parent.

Notes

- Note 1: If a class number has not been provided in Schedule II of the Income Tax Regulations for a particular class of property, use the subsection provided in Regulation 1101.
- Note 2: Include any property acquired in previous years that has now become available for use, net of any government assistance received or entitled to be received in the year from a government, municipality or other public authority, or a reduction of capital cost after the application of section 80. This property would have been previously excluded from column 3. List separately any acquisitions of property in the class that are not subject to the 50% rule. See Income Tax Folio S3-F4-C1, General Discussion of Capital Cost Allowance, for exclusions from the half-year rule. Do not include any amount in column 3 in respect of property included in column 6 (Note 5). See Guide T4012 for more information about the cost of acquisitions during the year.
- Note 3: An AIIP is a property (other than property included in Classes 54 to 56) that you acquired after November 20, 2018 and before 2025, and that became available for use before 2028.
Classes 54 and 55 include zero-emission vehicles that you acquired after March 18, 2019, and that became available for use before 2034.
Class 56 applies to eligible zero-emission automotive equipment and vehicles (other than motor vehicles) that you acquired after March 1, 2020, and that became available for use before 2034.
See Guide T4012 for more information.
- Note 4: An RIIP is a property (other than property included in Classes 54 to 56) that you acquired after 2024, and that became available for use before 2034.
Classes 54 and 55 include zero-emission vehicles that you acquired after March 18, 2019, and that became available for use before 2034.
Class 56 applies to eligible zero-emission automotive equipment and vehicles (other than motor vehicles) that you acquired after March 1, 2020, and that became available for use before 2034.
See Guide T4012 for more information.
- Note 5: Enter in column 6, "Adjustments and transfers," amounts that increase or reduce the UCC (column 10). Items that increase the UCC include amounts transferred under section 85, or transferred on amalgamation or winding-up of a subsidiary. Items that reduce the UCC (show amounts that reduce the UCC in brackets) include assistance received or receivable during the year for a property, subsequent to its disposition, if such assistance would have decreased the capital cost of the property by virtue of paragraph 13(7.1)(f). See Guide T4012 for other examples of adjustments and transfers to include in column 6.
Also include property acquired in a non-arm's length transaction [other than by virtue of a right referred to in paragraph 251(5)(b)] if the property was a depreciable property acquired by the transferor at least 364 days before the end of your tax year and continuously owned by the transferor until it was acquired by you.
- Note 6: Include all amounts of assistance you received (or were entitled to receive) after the disposition of a depreciable property that would have decreased the capital cost of the property by virtue of paragraph 13(7.1)(f) if received before the disposition.
- Note 7: Include all amounts you have repaid during the year for any legally required repayment, made after the disposition of a corresponding property, of:
- assistance that would have otherwise increased the capital cost of the property under paragraph 13(7.1)(d) and
 - an inducement, assistance, or any other amount contemplated in paragraph 12(1)(x) received, that otherwise would have increased the capital cost of the property under paragraph 13(7.4)(b)
- Include the UCC of each property of a prescribed class acquired in the course of a corporate reorganization described under paragraph 55(3)(b) (also known as "butterfly reorganization") or include property acquired in a non-arm's length transaction [other than by virtue of a right referred to in paragraph 251(5)(b)] if the property was a depreciable property acquired by the transferor less than 364 days before the end of your tax year and continuously owned by the transferor until it was acquired by you.
- Note 8: For each property disposed of during the year, deduct from the proceeds of disposition any outlays and expenses to the extent that they were made or incurred for the purpose of making the disposition(s). The amount reported in respect of the property cannot exceed the property's capital cost, unless that property is a timber resource property as defined in subsection 13(21).
If the cost of a zero-emission passenger vehicle (or a passenger vehicle that was, at any time, a designated immediate expensing property) exceeds the prescribed amount and it is disposed of to a person or partnership with which you deal at arm's length, the proceeds of disposition will be adjusted based on a factor equal to the prescribed amount as a proportion of the actual cost of the vehicle. The actual cost of the vehicle will be adjusted for payment or repayment of government assistance.
- Note 9: If the amount in column 6 (as shown in brackets) reduces the UCC, you must subtract it for the purpose of the calculation. Otherwise, add the amount in column 6 for the purpose of the calculation.
- Note 10: The adjustment from column 15 is added to the UCC in column 10 to calculate the CCA deduction in column 21.
The relevant factors for property of a class in Schedule II, that is an AIIP or property acquired before 2025 that is included in Classes 54 to 56, are:
- 1 1/2 for property in Classes 43.1, 54 and 56 that became available for use in 2024 or 2025 or 5/6 if it became available for use after 2025
 - 7/8 for property in Class 55 that became available for use in 2024 or 2025 or 3/8 if it became available for use after 2025
 - 1/2 for property in Classes 43.2 and 53 that became available for use in 2024 or 2025 or 1/10 if it became available for use after 2025
 - 3 for property in Class 44 that was acquired and became available for use after April 15, 2024 and before 2027 or 0 if it became available for use after 2026
 - 2 1/3 for property in Class 46 that was acquired and became available for use after April 15, 2024 and before 2027 or 0 if it became available for use after 2026
 - 9/11 for property in Class 50 that was acquired and became available for use after April 15, 2024 and before 2027 or 0 if it became available for use after 2026
 - 0 for property in Classes 12, 13, 14, 15, and 59, as well as properties that are Canadian vessels included in paragraph 1100(1)(v) of the Regulations (see note 16 for additional information)
 - 0 for all other property (including property in Class 10.1) that is an AIIP (other than property in Classes 44, 46 or 50) that became available for use after 2023
- If the tax year does not follow the calendar year, the relevant factor is determined under subsection 1100(2.01) of the Regulations.

Notes (continued)

Note 11: The adjustment from column 16 is added to the UCC in column 10 to calculate the CCA deduction in column 21.

The relevant factors for property of a class in Schedule II, that is an RIIP or property acquired after 2024 that is included in Classes 54 to 56, are:

- 2 1/3 for property in Classes 43.1, 54 and 56 that became available for use before 2030
- 1 1/2 for property in Class 55 that became available for use before 2030
- 1 for property in Class 53
- 2 1/3 for property in Class 43 acquired after 2025 that became available for use before 2030, if such property would have been included in Class 53 if it had been acquired in 2025
- 3 for property in Class 44 that became available for use before 2027 or 0 if it became available for use after 2026
- 2 1/3 for property in Class 46 that became available for use before 2027 or 0 if it became available for use after 2026
- 9/11 for property in Class 50 that became available for use before 2027 or 0 if it became available for use after 2026
- 0 for property in Classes 12, 13, 14, 15, and 59, as well as properties that are Canadian vessels included in paragraph 1100(1)(v) of the Regulations (see note 16 for additional information)
- 0.5 for all other property (including property in Class 10.1) that is an RIIP that became available for use before 2030 or 0 if it became available for use after 2029

If the tax year does not follow the calendar year, the relevant factor is determined under subsection 1100(2.011) of the Regulations.

Note 12: The UCC adjustment for property acquired during the year (also known as the half-year rule or 50% rule) does not apply to certain property (including AIIP, RIIP and property included in Classes 54 to 56). For special rules and exceptions, see Income Tax Folio S3-F4-C1, General Discussion of Capital Cost Allowance. The adjustment from column 17 is subtracted from the UCC in column 10 to calculate the CCA deduction in column 21.

Note 13: Enter a rate only if you are using the declining balance method. For any other method (for example, the straight-line method, where calculations are always based on the cost of acquisitions), enter "N/A". Then enter the amount you are claiming in column 21.

Note 14: If the amount in column 10 is negative, you have a recapture of CCA. If applicable, enter the negative amount from column 10 in column 19 as a positive. The recapture rules do not apply to passenger vehicles in Class 10.1. However, they do apply to a passenger vehicle that was, at any time, a designated immediate expensing property.

Note 15: If no property is left in the class at the end of the tax year and there is still a positive amount in the column 10, you have a terminal loss. If applicable, enter the positive amount from column 10 in column 20. The terminal loss rules do not apply to:

- passenger vehicles in Class 10.1
- property in Class 14.1, unless you have ceased carrying on the business to which it relates
- limited-period franchises, concessions, or licences in Class 14 if, at the time of acquisition, the property was a former property of the transferor or any similar property attributable to the same fixed place of business, and you had jointly elected with the transferor to have the replacement property rules apply, unless certain conditions are met

Note 16: If the tax year is shorter than 365 days, prorate the CCA claim. Some classes of property do not have to be prorated. See Guide T4012 for more information.

For property in Class 10.1 disposed of during the year, deduct a maximum of 50% of the regular CCA deduction if you owned the property at the beginning of the tax year.

For AIIP and RIIP listed below, the maximum first year allowance you can claim is determined as follows:

- Class 13: if the capital cost of the RIIP was incurred before 2030, the lesser of 150% of the amount calculated in Schedule III of the Regulations and the UCC at the end of the tax year (before any CCA deduction), and in any other case, the amount for the year calculated in accordance with Schedule III of the Regulations
- Class 14: the lesser of 150% (if the property is an RIIP that becomes available for use in the year and before 2030) or 125% (if the property is an AIIP that becomes available for use in the year and after 2023 or an RIIP that becomes available for use in the year and after 2029) of the allocation for the year of the capital cost of the property apportioned over the remaining life of the property (at the time the cost was incurred) and the UCC at the end of the tax year (before any CCA deduction)
- Class 15: the lesser of 150% (if the property is an RIIP acquired in the year and before 2026) or 125% (if the property is an AIIP acquired in the year and after 2023 or an RIIP acquired in the year and after 2025) of an amount calculated on the basis of a rate per cord, board foot, or cubic metre cut in the tax year and the UCC at the end of the tax year (before any CCA deduction)
- Canadian vessels described under paragraph 1100(1)(v) of the Regulations: the lesser of 50% (for RIIP acquired in the year and before 2030) or 33 1/3% (in any other case) of the capital cost of the property and the UCC at the end of the tax year (before any CCA deduction)
- Natural gas liquefaction: The additional allowances in respect of natural gas liquefaction under paragraphs 1100(1)(a.3) and (yb) of the Regulations are eligible for the accelerated investment incentive and the reaccelerated investment incentive.

The AIIP and RIIP provisions also apply to property (other than a timber resource property) that is a timber limit or a right to cut timber from a limit as well as to an industrial mineral mine or a right to remove minerals from an industrial mineral mine. See the Income Tax Regulations for more details.

Agreement Among Associated Canadian-Controlled Private Corporations
to Allocate the Business Limit

- For use by a Canadian-controlled private corporation (CCPC) to identify all associated corporations and to assign a percentage for each associated corporation. This percentage will be used to allocate the business limit for the small business deduction. Information from this schedule will also be used to determine the date the balance of tax is due and to calculate the reduction to the business limit.
 - An associated CCPC that has more than one tax year ending in a calendar year must file an agreement for each tax year ending in that calendar year.
- Column 1:** Enter the legal name of each of the corporations in the associated group, including those deemed to be associated under subsection 256(2) of the Income Tax Act.
- Column 2:** Provide the business number for each corporation (if a corporation is not registered, enter "NR").
- Column 3:** Enter the association code from the list below that applies to each corporation:
- 1 – Associated for purposes of allocating the business limit (unless association code 5 applies)
 - 2 – CCPC that is a **third corporation** as referred to in subsection 256(2) and has filed Schedule 28, Election not to be Associated Through a Third Corporation
 - 3 – Non-CCPC that is a **third corporation**
 - 4 – Associated non-CCPC
 - 5 – Associated CCPC to which association code 1 does not apply because a **third corporation** has filed Schedule 28
- Column 4:** Enter the business limit for the year of each corporation in the associated group. Enter "0" if the corporation has association code 2, 3 or 4 in column 3 (except if the corporation is a cooperative or a credit union eligible for the SBD and it has association code 4).
- Column 5:** Assign a percentage to allocate the business limit to each corporation that has association code 1 in column 3. The total of all percentages in column 5 cannot exceed 100%.
- Column 6:** Enter the business limit allocated to each corporation by multiplying the amount in column 4 by the percentage in column 5. Add all business limits allocated in column 6 and enter the total at line A.
- Ensure that the total at line A does not exceed \$500,000.

Business limit reduction under subsection 125(5.1) of the Act

The business limit reduction is calculated in the small business deduction area of the T2 return. One of the factors used in this calculation is the "large corporation amount" at line 415 of the T2 return. The amount at line 415 is determined using the formula $0.225\% \times (C - \$10,000,000)$. Another factor is the "adjusted aggregate investment income" from lines 744 and 745 of Schedule 7, Aggregate Investment Income and Income Eligible for the Small Business Deduction. Details of these formulas and variable C are in subsection 125(5.1) of the Act.

* Each corporation will enter on line 410 of the T2 return, the amount allocated to it in column 6. However, if the corporation's tax year is less than 51 weeks, prorate the amount in column 6 by the number of days in the tax year divided by 365, and enter the result on line 410 of the T2 return.

Special rules for business limit

Special rules apply under subsection 125(5) if a CCPC has more than one tax year ending in the same calendar year and it is associated in more than one of those tax years with another CCPC that has a tax year ending in that calendar year. The business limit for the second or later tax year will be equal to the lesser of: the business limit determined for the first tax year ending in the calendar year or the business limit determined for the second or later tax year ending in the same calendar year.

Taxable Capital Employed in Canada – Large Corporations

Corporation's name	Business number	Tax year-end Year Month Day
Lakefront Utilities Inc.	86512 5231 RC0001	2025-12-31

- Use this schedule in determining if the total taxable capital employed in Canada of the corporation (other than a financial institution or an insurance corporation) and its related corporations is greater than \$10,000,000.
- If the total taxable capital employed in Canada of the corporation and its related corporations is greater than \$10,000,000, file a completed Schedule 33 with your T2 *Corporation Income Tax Return* no later than six months from the end of the tax year.
- Unless otherwise noted, all legislative references are to the *Income Tax Act* and the *Income Tax Regulations*.
- Subsection 181(1) defines the terms **financial institution**, **long-term debt**, and **reserves**.
- Subsection 181(3) provides the basis to determine the carrying value of a corporation's assets or any other amount under Part I.3 for its capital, investment allowance, taxable capital, or taxable capital employed in Canada, or for a partnership in which it has an interest.
- If the corporation was a non-resident of Canada throughout the year and carried on a business through a permanent establishment in Canada, go to Part 4, **Taxable capital employed in Canada**.

Part 1 – Capital

Add the following year-end amounts:

Reserves that have not been deducted in calculating income for the year under Part I	101	
Capital stock (or members' contributions if incorporated without share capital)	103	5,293,376
Retained earnings	104	8,652,205
Contributed surplus	105	
Any other surpluses	106	
Deferred unrealized foreign exchange gains	107	
All loans and advances to the corporation	108	3,076,779
All indebtedness of the corporation represented by bonds, debentures, notes, mortgages, hypothecary claims, bankers' acceptances, or similar obligations	109	16,569,919
Any dividends declared but not paid by the corporation before the end of the year	110	
All other indebtedness of the corporation (other than any indebtedness for a lease) that has been outstanding for more than 365 days before the end of the year	111	
The total of all amounts, each of which is the amount, if any, in respect of a partnership in which the corporation held a membership interest at the end of the year, either directly or indirectly through another partnership (see note below)	112	
Subtotal (add lines 101 to 112)		33,592,279 ▶ 33,592,279 A

Note:

Line 112 is determined by the formula $(A - B) \times C/D$ (as per paragraph 181.2(3)(g)) where:

- A is the total of all amounts that would be determined for lines 101, 107, 108, 109, and 111 in respect of the partnership for its last fiscal period that ends at or before the end of the year if
- those lines applied to partnerships in the same manner that they apply to corporations, and
 - those amounts were computed without reference to amounts owing by the partnership
 - to any corporation that held a membership interest in the partnership either directly or indirectly through another partnership, or
 - to any partnership in which a corporation described in subparagraph (i) held a membership interest either directly or indirectly through another partnership.
- B is the partnership's deferred unrealized foreign exchange losses at the end of the period,
- C is the share of the partnership's income or loss for the period to which the corporation is entitled either directly or indirectly through another partnership, and
- D is the partnership's income or loss for the period.

Part 1 – Capital (continued)Subtotal A (from page 1) 33,592,279 A**Deduct** the following amounts:Deferred tax debit balance at the end of the year **121** _____Any deficit deducted in calculating its shareholders' equity (including, for this purpose, the amount of any provision for the redemption of preferred shares) at the end of the year **122** _____To the extent that the amount may reasonably be regarded as being included in any of lines 101 to 112 above for the year, any amount deducted under subsection 135(1) in calculating income under Part I for the year. **123** _____Deferred unrealized foreign exchange losses at the end of the year **124** _____Subtotal (**add** lines 121 to 124) **▶** _____ B**Capital for the year** (amount A **minus** amount B) (if negative, enter "0") **190** 33,592,279**Part 2 – Investment allowance****Add** the carrying value at the end of the year of the following assets of the corporation:A share of another corporation **401** _____A loan or advance to another corporation (other than a financial institution) **402** _____A bond, debenture, note, mortgage, hypothecary claim, or similar obligation of another corporation (other than a financial institution) **403** _____Long-term debt of a financial institution **404** _____A dividend payable on a share of the capital stock of another corporation **405** _____A loan or advance to, or a bond, debenture, note, mortgage, hypothecary claim or similar obligation of, a partnership each member of which was, throughout the year, another corporation (other than a financial institution) that was not exempt from tax under this Part (otherwise than because of paragraph 181.1(3)(d)), or another partnership described in paragraph 181.2(4)(d.1) **406** _____An interest in a partnership (see note 2 below) **407** _____**Investment allowance for the year** (add lines 401 to 407) **490** _____**Notes:**

1. Lines 401 to 405 should not include the carrying value of a share of the capital stock of, a dividend payable by, or indebtedness of a corporation that is exempt from tax under Part I.3 (other than a non-resident corporation that at no time in the year carried on business in Canada through a permanent establishment).
2. Where the corporation has an interest in a partnership held either directly or indirectly through another partnership, refer to subsection 181.2(5) for additional rules regarding the carrying value of an interest in a partnership.
3. Where a trust is used as a conduit for loaning money from a corporation to another related corporation (other than a financial institution), the loan will be considered to have been made directly from the lending corporation to the borrowing corporation. Refer to subsection 181.2(6) for special rules that may apply.

Part 3 – Worksheet to calculate the GRIP addition post-amalgamation or post-wind-up
(predecessor or subsidiary was a CCPC or a DIC in its last tax year)

nb. 1 Post amalgamation . . . ☐ Post wind-up ☐

- Complete this part when there has been an amalgamation (within the meaning assigned by subsection 87(1)) or a wind-up (to which subsection 88(1) applies) and the predecessor or subsidiary corporation was a CCPC or a DIC in its last tax year. The last tax year for a predecessor corporation was its tax year that ended immediately before the amalgamation and for a subsidiary corporation was its tax year during which its assets were distributed to the parent on the wind-up.
- Calculate the GRIP addition of a successor corporation following an amalgamation at the end of its first tax year.
- Calculate the GRIP addition of a parent corporation upon wind-up at the end of the tax year that ends immediately after the tax year in which the parent has received the assets of the subsidiary.
- In the calculation below, **corporation** means a predecessor or a subsidiary. Complete a separate worksheet for **each** predecessor and **each** subsidiary that was a CCPC or a DIC in its last tax year. Keep a copy of this calculation for your records, in case we ask to see it later.

Corporation's GRIP at the end of its last tax year		A4
Eligible dividends paid by the corporation in its last tax year		B4
Excessive eligible dividend designations made by the corporation in its last tax year		C4
Subtotal (amount B4 minus amount C4)	=====▶	D4
GRIP addition post-amalgamation or post-wind-up (predecessor or subsidiary was a CCPC or a DIC in its last tax year) (amount A4 minus amount D4)		E4

After you complete this calculation for each predecessor and each subsidiary, calculate the total of all the E4 amounts. Enter this total amount on:

- line 230 for post-amalgamation; or
- line 240 for post-wind-up.

Part 4 – Worksheet to calculate the GRIP addition post-amalgamation, post-wind-up (predecessor or subsidiary was not a CCPC or a DIC in its last tax year), or the corporation is becoming a CCPC

nb. 1 Corporation becoming a CCPC ☐ Post amalgamation ☐ Post wind-up ☐

- Complete this part when there has been an amalgamation (within the meaning assigned by subsection 87(1)) or a wind-up (to which subsection 88(1) applies) and the predecessor or subsidiary was not a CCPC or a DIC in its last tax year, or when a corporation has become a CCPC since the end of its previous tax year. The last tax year for a predecessor corporation was its tax year that ended immediately before the amalgamation and for a subsidiary corporation was its tax year during which its assets were distributed to the parent on the wind-up.
- Calculate the GRIP addition of a successor corporation following an amalgamation at the end of its first tax year.
- Calculate the GRIP addition of a parent corporation upon wind-up at the end of the tax year that ends immediately after the tax year in which the parent has received the assets of the subsidiary.
- Calculate the GRIP addition of a corporation that became a CCPC since the end of its previous tax year.
- In the calculation below, **corporation** means a predecessor or a subsidiary, or a corporation that became a CCPC since the end of its previous tax year. Complete a separate worksheet for **each** predecessor and **each** subsidiary that was not a CCPC or a DIC in its last year. Keep a copy of this calculation for your records, in case we ask to see it later.

Cost amount to the corporation of all property immediately before the end of its previous/last tax year A5

The corporation's money on hand immediately before the end of its previous/last tax year B5

Total of subsection 111(1) losses that would have been deductible in calculating the corporation's taxable income for the previous/last tax year if the corporation had had unlimited income from each business carried on and each property held and had realized an unlimited amount of capital gains for the previous/last tax year:

Non-capital losses		C5
Net capital losses		D5
Farm losses		E5
Restricted farm losses		F5
Limited partnership losses		G5
Subtotal (add amounts C5 to G5)		H5

Total of all amounts deducted under subsection 111(1) in calculating the corporation's taxable income for the previous/last tax year:

Non-capital losses		I5
Net capital losses		J5
Farm losses		K5
Restricted farm losses		L5
Limited partnership losses		M5
Subtotal (add amounts I5 to M5)		N5

Unused and unexpired losses at the end of the corporation's previous/last tax year (amount H5 minus amount N5) O5

Subtotal (add amounts A5, B5, and O5) P5

All the corporation's debts and other obligations to pay that were outstanding immediately before the end of its previous/last tax year Q5

Paid-up capital of all the corporation's issued and outstanding shares of capital stock immediately before the end of its previous/last tax year R5

All the corporation's reserves deducted in its previous/last tax year S5

The corporation's capital dividend account immediately before the end of its previous/last tax year T5

The corporation's low rate income pool immediately before the end of its previous/last tax year U5

Subtotal (add amounts Q5 to U5) V5

GRIP addition post-amalgamation or post-wind-up (predecessor or subsidiary was not a CCPC or a DIC in its last tax year), or the corporation is becoming a CCPC (amount P5 minus amount V5) (if negative, enter "0") W5

After you complete this worksheet for each predecessor and each subsidiary, calculate the total of all the W5 amounts. Enter this total amount on:

- line 220 for a corporation becoming a CCPC;
- line 230 for post-amalgamation; or
- line 240 for post-wind-up.
