June 30, 2026

DECISION AND ORDER

RPM Group Commercial Energy Solutions Inc. (the applicant) filed a complete application on May 19, 2026, with the Ontario Energy Board (OEB) pursuant to section 60 of the *Ontario Energy Board Act, 1998* (OEB Act), for a specific electricity retailer licence. This licence would allow the applicant to act as an agent or broker for a retailer in order to offer or sell electricity only to consumers who consume low volumes of electricity, such as households and small businesses. This is conventionally known as an agent-only (low volume consumers) retailer licence.

This Decision and Order is being issued by the Delegated Authority pursuant to Section 6 of the OEB Act. The Delegated Authority has considered the application without holding a hearing pursuant to section 6(4) of the OEB Act.

After considering the application and assessing the applicant's technical capability, financial viability and conduct, the OEB finds that it is in the public interest to grant the application and issue an agent only (low volume consumers) electricity retailer licence to RPM Group Commercial Energy Solutions Inc. If the applicant wishes to engage in electricity retailer activities beyond the scope of the agent (low volume consumers) licence, the applicant shall file an application and obtain the OEB's approval.

IT IS ORDERED THAT:

1. The application for an agent only electricity retailer licence to sell electricity only to consumers who consume low volumes of electricity is granted, on such conditions as are contained in the attached licence.
