

NOTICE OF APPLICATION

Hydro One Networks Inc. is seeking an exemption from provisions in its Rate Order related to Gross Load Billing

Hydro One Networks Inc. (Hydro One Networks) has applied to the Ontario Energy Board (OEB) for an exemption from provisions in its distribution Rate Order for an existing customer who is connected to its distribution system, and a prospective customer who has requested a connection to its distribution system, both located in the Leamington area.

Hydro One Networks has applied for the following approvals:

- An exemption from provisions in its Rate Order (EB-2025-0030) pertaining to the application of Gross Load Billing (GLB) for distribution customers with embedded generation facilities
- An amendment to its Rate Order to allow Hydro One Networks to apply a proposed alternative approach to GLB to any other identical scenarios that may arise

A Rate Order is the OEB decision that sets the rates a utility can charge customers and explains when and how those rates will take effect. GLB is a mechanism that Hydro One Networks uses to recover the cost of providing a customer's maximum potential demand, combining both the power drawn from the grid and the power supplied by customer's own generation, for the grid capacity built to support the customer's peak demand.

You can view the application by visiting www.oeb.ca/notice and using file number **EB-2026-0193**.

Hydro One Networks submits that no person will be adversely affected in a material way by the outcome of the proceeding and has requested that the application be decided without a hearing. If you believe a hearing is needed, then you can request one by filing a letter with the OEB no later than **July 31, 2026**. You should indicate whether you have a preference for the hearing to be oral, electronic or written. If you do not file a letter by the due date, you will not receive any further notice in the event the OEB proceeds with a hearing. If you submit a letter, your name and the content of your letter will be put on the public record and the OEB website.
