Sr. Specialist Regulatory Compliance
Capital Power
1200 – 10423 101 St. N. W.,
Edmonton, Alberta, T5H 0E9.

Dear Tracy Coutts:

Re: **EB-2023-0354 – 1000439737 Ontario Inc. on behalf of East Windsor (Expansion) L.P**

On February 22, 2024, the Ontario Energy Board (OEB) issued a [Decision and Order](#) approving East Windsor (Expansion) L.P.'s (EWLP) application for an electricity generation licence. The decision noted that the grant of the electricity generation licence shall not take effect until EWLP advises the OEB that the facility described in its application has been constructed and is ready to commence commercial operation.

In a [letter](#) dated July 2, 2026, Capital Power Corporation (Capital Power), the parent of EWLP, informed the OEB that construction of its facility is scheduled to be completed and that it would sync to the grid between July 22 and July 28, 2026. The letter further noted that EWLP's facility is forecasted to begin commercial operation between September 15 and September 30, 2026.

On July 15, 2026, OEB staff informed Capital Power that under the licensing provisions of the *Ontario Energy Board Act, 1998*, including sections 57, 60 and 74, only a "person" may hold an OEB licence. As a limited partnership is not a legal person, the OEB's preferred approach is to issue licences in the name of a general partner on behalf of the limited partnership (for example, "1000439737 Ontario Inc. on behalf of East Windsor (Expansion) L.P.>").

To ensure that the licence is issued to an entity that meets the statutory definition of a "person," OEB staff requested that Capital Power submit a letter requesting an amendment to the licence for the East Windsor Expansion facility.

In a [letter](#) dated July 21, 2026, Capital Power requested that the OEB issue the licence to 1000439737 Ontario Inc., in its capacity as the general partner of, and on behalf of EWLP. The letter also included information on EWLP's general partner's financial information, list of directors, organization chart and certificate and articles of incorporation. The information Capital Power has provided makes clear that all other information in EWLP's application for an electricity generation licence filed on December 5, 2023 will remain unchanged for the amended licensee.

The OEB accepts Capital Power's proposal to identify EWLP's general partner as the licensee on behalf of EWLP and notes that the technical capability and financial information of EWLP's general partner remain substantially the same as those of its limited partner. Accordingly, the OEB finds that it is in the public interest to issue an electricity generation licence to 1000439737 Ontario Inc. on behalf of East Windsor (Expansion) L.P.

Yours truly,

Ceiran Bishop
