### **Issues:**

Members and supporters of Energy Probe are ratepayers of Enbridge Gas. The rates they pay will be impacted by the outcome of this proceedings. While all issues in this case are of interest to Energy Probe, the following issues are of particular interest. 1. Is the base rate adjustment moving \$50 million of overhead capital to O&M calculated properly? 3. Are the proposed Y-factor pass-through costs included in 2027 rates for each of the EGD and Union Rate Zones appropriate? 4. Are the updated Miscellaneous Service Charges calculated properly?

### **Policy Interests:**

Energy Probe does not primarily represent a policy interest.

## **Hearings:**

Energy Probe does not believe that there is a good reason for having a specific form of hearing.

## **Evidence:**

Energy Probe does not intend to file evidence.

## **Coordination with Other Intervenors:**

Energy Probe intends to coordinate its efforts with intervenors with similar interests by sharing plans for interrogatories, technical conference, and the hearing to avoid duplication.

## **Cost Awards:**

Energy Probe applies for recovery of its reasonably incurred costs during its intervention in this proceeding. Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in OEB proceedings would be limited. Energy Probe's members and supporters are customers of Enbridge Gas and are eligible for an award of costs according to section 3.03(a) of the Practice Directions. Energy Probe has participated in many past natural gas and electricity proceedings in Ontario, including consultations, rate cases, and other processes and hearings, and has been found eligible to be paid its reasonably incurred costs.

## **Language Preference:**

Energy Probe does not intend to participate in the hearing using the French language.
