EB-2025-0064	Natural Gas – Rates	Granted
EB-2026-0142	Electricity – Rates	Granted

Issues:

Canadian Manufacturers & Exporters ("CME") is Canada's leading business network. Its members represent 75% of manufactured output in the Province of Ontario and 90% of all exports. One of CME's priorities is to improve the business climate for manufacturers. Initiatives pertaining to Energy and the Environment fall within the scope of this objective and include efforts by CME to ensure that its members enjoy continued access to a reliable and cost competitive supply of energy and natural gas across Canada. In this context, CME seeks an Ontario natural gas system for its members which is reliable, affordable, cost effective and economically sustainable with natural gas prices for Ontario manufacturers which are competitive with prices available to manufacturers located elsewhere. In light of CME's member base and its objective of maintaining a continued access to reliable and cost-competitive natural gas in Ontario, CME's members are materially impacted by any proposed rate increases deliberated in this proceeding. CME therefore represents members who have a direct and substantial interest in the outcome of the proceeding. CME intends to participate actively in this proceeding for the purpose of: (a) Assuring that all relevant facts are placed in evidence for the Board's consideration; (b) Making submissions on the issues which the Application raises; and (c) such further and other matters as counsel may advise and the Board may permit.

Policy Interests:

N/A

Hearings:

An oral hearing, preceded by a written discovery process and a Settlement Conference, is the most efficient way of determining the issues raised by the Application. An oral hearing should be held to determine any issues which cannot be settled.

Evidence:

At this time, CME does not intend to file evidence in the proceeding.

Coordination with Other Intervenor:

CME is a frequent intervenor, and continually strives to coordinate with like-minded intervenors, including in interrogatories, technical conference questioning, and cross examinations.

Cost Awards:

CME is applying for cost eligibility in this proceeding. CME is eligible for a cost award pursuant to Section 3.03(a) of the OEB's Practice Direction on Cost Awards, as CME "primarily represents the direct interest of consumers (e.g. ratepayers) in relation to services that are regulated but the Board." CME's members are manufacturers that seek reliable, affordable, cost effective and economically sustainable natural gas. In many prior proceedings, the Board has determined that CME is eligible for a Cost Award.

Language Preference:

CME intends to participate in English.
