Dear Mr. Murray:

Re: EB-2025-0064 – Enbridge Gas Inc. (EGI) Application for 2024 Cost of Service Rates; Phase 3

Industrial Gas Users Association (IGUA) Written Argument

In our consideration of the remaining, Issue 13 matters on behalf of IGUA we have focussed on the Integrated Resource Planning (IRP) topic.

IGUA agrees with EGI that questions, issues and proposals about whether IRP can or should be approached differently in the future are appropriately directed to the upcoming adjudicated process to review the IRP Framework, instituted after EGI's Phase 3 evidence was filed. EGI has been directed to file an updated IRP Framework for adjudication in that process. That EGI proposal should form a solid basis for a more complete record on the topic. Reserving further work on that topic to the contemplated proceeding is both an effective and efficient approach. IGUA anticipates being active in that matter, and looks forward to further consideration of, and input into, the IRP topic in that proceeding.

Yours truly,

Ian A. Mondrow
