Dear Erin Stevens:

**Re: Elexicon Energy Inc.
2027-2031 Custom Rate Application for Electricity Rates and Charges
OEB File Number: EB-2025-0312**

In February, I advised the Chief Commissioner that I would not be seeking reappointment when my appointment ends on September 30, 2026. I did so to allow lots of time for recruiting a replacement and to ensure that I would only be assigned to cases that could be completed as close as possible to September 30.

At the time, I had already been assigned to this proceeding. I agreed to remain on the panel on the basis that if a full settlement was reached, there would be sufficient time for me to participate in the decision-making process and complete it by September 30.

However, a partial settlement has been reached and with the unsettled issues going to an oral hearing, the case will extend well beyond September 30. This is well past my objective to be completely finished my work as Commissioner no later than the end of October.

As a result, I have advised the Chief Commissioner that I am stepping down from the panel effective today to allow him to appoint a replacement. This will ensure that all substantive decisions to be made on this application can be made by the reconstituted panel.

Yours truly,

Patrick
Moran
