To the Ontario Energy Board, I am writing as a London Hydro residential customer to express my strong opposition to London Hydro's application to increase electricity distribution rates. Household budgets are already stretched by the rising cost of living, essential goods, and existing utility expenses. Adding an additional monthly cost places an unfair financial burden on local residents. I request that the Ontario Energy Board reject this proposed increase and require London Hydro to find cost savings within its current budget rather than passing further price hikes onto consumers. Thank you for considering my input.

Sincerely,

Kylan B.
