Issues:

Pollution Probe represents a consumer and policy interest related to Hydro Ottawa's 2027 rates application. This Application represents Hydro Ottawa's Year 2 rate update under Hydro Ottawa's five-year Custom Incentive Rate-setting (Custom IR) plan, which was approved in May 2026 following an Approved Settlement Agreement with intervenors and the OEB's Decision and Order. Pollution Probe was a party to the 2026 Rebasing proceedings and related

OEB-approved Settlement Agreement which sets the basis of this 2027 rates proceeding. Pollution Probe has discussed the 2027 Application with CAFES Ottawa, which is a local ratepayer and community organisation that was also a party to the 2026 Custom IR proceeding and a party to the Settlement Agreement. Pollution Probe is proposing to coordinate input from CAFES Ottawa during this proceeding, as appropriate.

Policy Interests:

Please see above.

Hearings:

Pollution Probe believes that the written format requested by the Applicant is appropriate.

Evidence:

Pollution Probe does not intend to commission expert evidence at this time.

Coordination with Other Intervenors:

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate. Pollution Probe coordinated efficiently with stakeholders in the 2026 Custom IR proceeding which set the basis for this 2027 rates proceeding. This efficient coordination is planned to continue in this proceeding. As noted above, coordination is planned with CAFES Ottawa during this proceeding.

Cost Awards:

Pollution Probe respectfully requests your acceptance of this intervenor request and confirmation that it will be eligible for its costs. Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.
