I would like to express my disgust for the rate hike. We are paying through the nose as it is. We currently work out home to not waste energy. Unplug items, turn off lights, switched to lower energy consumption. Energy audits and made changes. Despite this the delivery fee is almost half of what my usage is and now you want another increase which I am only to assume it to keep shareholders happy with profits. Something has to give. I vehemently oppose this rate hike as it doesn't serve any purpose.
