LETTER OF COMMENT

Comments:

London hydro has applied to increase rates and this is completely unacceptable. London Hydro is above budget and consumers and families are struggling to survive. With the rent prices out there and now a possible hydro increase, this is 1-step closer to homelessness. Try living at an apartment and paying \$1200/month for rent plus hydro on a retail job, impossible. Are the people in charge out of touch with real life situations. Even a good customer like me who has paid on-time every month for years all of a sudden has a late payment due to forgetfulness, and gets a service charge. Really? Please consider working class people who are trying to survive and deny the price increase application. Thank you.

Name: Margaret Brannen

Do you reside in the impacted service area?: Yes
