

Curriculum Vitae – Barbara Constantinescu

Barbara Constantinescu is Manager –Market Facilitation in Market & System Operation Division at the IESO. She is a professional engineer with more than 25 years of experience in power system planning and operations. In her current capacity of Section Head – System Capability she manages the Connection Assessment and Approval process and transmission adequacy assessments. She supervises and coordinates work activities related to evaluating the impact on reliability of new or modified connections to the IESO-controlled Grid (ICG) in accordance with the Market Rules, relevant technical standards and procedures. She also supervises the periodic assessment of transmission system adequacy for the Outlook reports.

Prior to the IESO, during her career with the former Ontario Hydro she held various technical positions in area of transmission design and planning, and system operations.

She is a graduate of McMaster University with a Bachelor of Engineering Degree.
