	}	**AND IN THE MATTER OF** an Application by Hydro One pursuant to section 97 of the Act for an Order granting approval of the forms of land use agreements offered or to be offered to affected landowners.

AFFIDAVIT OF ERYN MACKINNON

I, Eryn MacKinnon, of the City of Toronto, in the Province of Ontario, MAKE OATH AND SAY AS FOLLOWS:

1. I am employed as a *Regulatory Advisor in the Regulatory Affairs Division of the Applicant, Hydro One Networks Inc.*

2. Hydro One has complied with the Ontario Energy Board's ("**OEB**") Letter of Direction dated October 5, 2026, in respect of EB-2026-0207 (the "**Letter**") as set out below.

3. In accordance with paragraph 1 of the Letter, Hydro One conducted a title search sufficient to determine the registered property owners and encumbrancers with lands or interests directly affected by the proposed application and related facilities refurbishments. I have been advised and do truly believe that this search has been completed as required.

   Hydro One was unable to effect service to one (1) registered interest holder and one (1) property owner of the subject properties identified below. With respect to these registered interest holders, I am advised and do believe that Hydro One has taken

reasonable steps to locate an address for service in the manner prescribed by the OEB's Letter of Direction. Despite these efforts, which are described in the chart below, service could not be completed.

Property Identification Number	**Property Owner or Registered Interest Holders Not Served**	**Description of Reasonable Efforts Undertaken to Locate an Address for Service**
[redacted]	[redacted] (Interest Holder)	Notice package was sent to the address for service identified in the title search results. The location was deemed unserviceable and the package was redirected to the local Purolator depot for pickup; however, the package was not collected. A review of the property using Google Street View indicated that the property appears to be vacant land. Additional online searches were conducted in an effort to identify a trustee or alternative contact information for [redacted]; however, no further address or trustee contact information was identified.
[redacted]	[redacted] (Property Owner)	The location was deemed unserviceable by Purolator and the original Notice package was redirected to the local Purolator depot for pickup; however, the package was not picked up. A further attempt at service was made by resending the Notice package via Canada Post Xpresspost. As of October 23, 2026, Canada Post [redacted] indicates that the package is scheduled for delivery on October 26, 2026.

4. In accordance with paragraph 2, subsections (b) through (f) of the Letter, an electronic copy of the Notice and the Application was served on the following:
    - Hydro One transmission customers, and generators impacted by the proposed refurbishment of the transmission line;
    - Owners and operators of rail lines, telecommunications networks, and other utilities along or crossing the proposed route and location for the K1/K2 Refurbishment Project;
    - The clerks Municipality of Kirkland Lake;
    - Specified provincial ministries, agencies, and federal departments.

Copies of the email correspondence are attached at **Exhibit "A"**.

5. In accordance with paragraph 3 of the Letter, the English and French versions of the Notice, the Application, and the Evidence were posted on Hydro One's website on October 6th, 2026. A copy of the website posting is attached at **Exhibit "B"**.
