OEB Staff Questions
Burlington Hydro Inc.
EB-2026-0028
October 26, 2026

Please note, Burlington Hydro Inc. (Burlington Hydro) is responsible for ensuring that all documents it files with the Ontario Energy Board (OEB), including responses to OEB staff interrogatories and any other supporting documentation, do not include personal information (as that phrase is defined in the *Freedom of Information and Protection of Privacy Act*), unless filed in accordance with rule 9A of the OEB's *Rules of Practice and Procedure*.

Staff Question-1
Ref 1: Time-of-Use Regulated Price Plan prices and Ontario Electricity Rebate effective November 1, 2026
Ref 2: 2027 Rate Generator Model (dated October 16, 2026)

Preamble:
Reference 1 states that electricity prices under the Regulated Price Plan (RPP) for households, small business and farms will change as of November 1, 2026. In addition, effective November 1, 2026, the Ontario government's Ontario Electricity Rebate (OEB) will change to 15.7%.

OEB staff notes that Tab 18 of the revised 2027 Rate Generator Model submitted by Burlington Hydro on October 16, 2026 (reference 2), contains the Time-of-Use RPP prices and OER effective November 1, 2025, rather than the updated values that will take effect on November 1, 2026 (reference 1).

OEB staff has updated cells D23 to D25 and E28 in Tab 18 of the revised 2027 Rate Generator Models (reference 2), to reflect the Time-of-Use RPP prices and OER effective November 1, 2026, respectively in "Attachment 1_2027 IRM_BHI_OEB Staff_20261026".

Question(s):

a) Please confirm the accuracy of the updates in "Attachment 1_2027 IRM_BHI_OEB Staff_20261026".
