Pollution Probe Hearing Estimate and Coordination

Dear Mr. Murray

The Ontario Energy Board (OEB) requested a hearing estimate for the upcoming oral hearing. Pollution Probe has been coordinating on the hearing issues and proposes that Clement Li (BOMA's representative) ask Pollution Probe's questions for the Elexicon panels, in a coordinated manner. This is more efficient given that during pre-hearing coordination it was determined that our questions (residual issues for the oral hearing) are of a common nature. This also resolves a scheduling conflict that would have otherwise required another Pollution Probe representative to be engaged and present for the duration of the oral hearing.

The preliminary estimated time for Pollution Probe was 45 minutes for Panel 1 and 25 minutes for Panel 2, but the Pollution Probe estimate is likely to be lower when BOMA has completed consolidation of the Pollution Probe questions with BOMA's questions. On this basis, the preliminary time estimate noted above will be replaced by the consolidated time estimate submitted by BOMA. We appreciate BOMA's coordination for this efficient approach.

Should you have any additional questions, please reach out via the email noted below.

Respectfully submitted on behalf of Pollution Probe.
