OEB Proceedings:

Item Description	Category	Status
EB-2025-0312	Electricity – Rates	Granted
EB-2025-0252	Electricity – Rates	Granted
EB-2025-0227	OEB Policy Development	Granted

Issues:

DRC is a group of electricity customers and consumers, consisting of end-use residential customers, non-profit organizations, and owners' associations. DRC is a coalition of Electric Vehicle Society (EVS) and Plug'n Drive (PnD). DRC, if granted intervenor status in this proceeding, will address the following: (i) the impact and consequences of Enbridge's proposed updates to its IRP Framework that affect the assessment of alternatives to natural gas infrastructure and the broader competitive environment for electrification; (ii) aspects of Enbridge's IRP Framework that appear to relate to the ongoing energy transition, including its proposed express exclusion of electricity-based alternatives and removal of language contemplating engagement with the Independent Electricity System Operator and local electricity distributors to facilitate electricity-based solutions; (iii) the appropriateness of Enbridge's proposed IRP Framework update in general; and (iv) any other matters that promote or otherwise represent the interests of DRC.

Policy Interests:

DRC primarily represents the direct interests of consumers (residential customers) in relation to services that are regulated by the Board. DRC represents organizations that have a policy interest in (i) preparing Ontario's distribution system for widespread adoption of EVs and DERs and ensuring adequate and expanded access to EV infrastructure, (ii) electricity conservation and demand management, (iii) implementation of a smart grid in Ontario, and (iv) promotion of the use of electricity from renewable energy sources.

Hearings:

DRC reserves its right to make submissions on the form of hearing following the interrogatory phase of the proceeding.

Evidence:

DRC does not currently expect to file evidence in this proceeding, but reserves its right to do so and will seek Board approval at the earliest opportunity.

Coordination with Other Intervenors:

DRC intends to be an active participant in this proceeding and will act responsibly to coordinate with other intervenors, as appropriate and where common issues may arise.

Cost Awards:

DRC hereby requests cost eligibility in this proceeding. DRC is, in accordance with s. 3.03(a) of the Board's Practice Direction on Cost Awards (the "Practice Direction"), eligible to seek an award of costs as DRC is a party that primarily represents the direct interests of consumers (residential customers) in relation to services that are regulated by the Board. DRC is also eligible to seek an award of costs in accordance with s. 3.03(b) of the Practice Direction, as DRC represents organizations that have a policy interest in electricity conservation and demand management, implementation of a smart grid in Ontario, promotion of the use of electricity from renewable energy sources, each of which are components of the Board's mandate and relevant to the proceeding. The Board has granted DRC cost eligibility in several Board proceedings, including each of the proceedings referred to in section 2 above. DRC therefore submits that it is appropriate for the Board to award DRC costs in the context of this proceeding, and hereby requests cost eligibility.

Language Preference:

DRC intends to participate in English.
