DECISION AND ORDER

EB-2026-0199

QUADLOGIC METERS CANADA INC.

Application for a Unit Sub-Metering Licence

BY DELEGATION,

BEFORE: **Ceiran Bishop**
Director, Performance Analytics and Compliance

November 12, 2026

DECISION AND ORDER

Quadlogic Meters Canada Inc. (Quadlogic Meters) filed a complete application on August 10, 2026, with the Ontario Energy Board (OEB), pursuant to section 60 of the *Ontario Energy Board Act, 1998* (OEB Act) for a renewal of its unit sub-metering licence ES-2012-0297, which expired on September 19, 2017. The licence would allow the applicant to provide unit sub-metering services to consumers in Ontario.

This Decision and Order is being issued by the Delegated Authority without a hearing pursuant to section 6(4) of the OEB Act.

The applicant was previously licensed by the OEB as a unit sub-metering provider; however, its licence expired on September 19, 2017.

In its application form, Quadlogic Meters affirmed that it is currently providing unit sub-metering services. In subsequent correspondence responding to OEB staff questions, it stated that it currently supplies and maintains submeters, provides Measurement Canada accredited services, collects meter data and provides technical support for commercial properties. It explained that it submitted its current application because it intends to provide billing services and the collecting of payments for commercial properties as well. Also, it stated that it allowed its licence to expire and did not previously renew it because it “decided at that time to not supply these services to residential properties and tenants.”

After considering the application and assessing the applicant’s technical and financial capability and conduct, the OEB finds it to be in the public interest to grant the application and issue a unit sub-metering licence to Quadlogic Meters Canada Inc. The applicant is reminded of the importance of maintaining a valid licence if it plans to continue its business operations and should take the necessary steps to ensure its licence remains in good standing. The granting of this licence is without prejudice to any future compliance action regarding Quadlogic Meters Canada Inc.’s operating without a licence.

IT IS ORDERED THAT:

1. The application for a unit sub-metering licence is granted, on such conditions as are contained in the attached licence.

DATED at Toronto, November 12, 2026
