Ontario Power Generation Inc. and DNNP LP

Application for payment amounts for the period from January 1, 2027 to December 31, 2031

PROCEDURAL ORDER NO. 10

NOVEMBER 16, 2026

On October 5, 2026, Ontario Power Generating Inc. (OPG) and DNNP LP by its general partner, DNNP GP Inc. (the Applicants) submitted a settlement proposal that reflected discussions during a settlement conference that commenced on June 29, 2026. On October 23, 2026, the Applicants filed a letter requesting an extension to all established procedural steps in order to assess an evolving change and to determine any impact to the Application. On October 27, 2026, the OEB granted the request, cancelling the procedural steps that were scheduled at that time. The OEB stated that it would await further information from the Applicants before scheduling any further procedural steps.

On November 10, 2026, the Applicants notified the OEB that the first small modular reactor unit and the common scope facilities under construction are no longer expected to achieve the forecast October 2030 in-service date. The Applicants filed an Impact Statement to reflect the removal of certain DNNP LP requested approvals related to the reactor unit and the common scope facilities.[1]

Also in the November 10, 2026 letter, the Applicants requested that the OEB return the parties to settlement discussions to assess the implications of the Impact Statement on the settlement proposal. The Applicants requested to reconvene so that the Applicants can propose an amendment to the settlement proposal.

On November 12, 2026, the Intervenors who are signatories to the settlement proposal informed the OEB that they agree to Applicants' proposal to return to the Settlement Conference. The Intervenors requested to reconvene with the Applicants on December 8, 2026 and noted that the Applicants are available on this date.

It is necessary to make provision for the following matters related to this proceeding.
