BY EMAIL AND BY COURIER

Ms. Kirsten Walli  
Board Secretary  
Ontario Energy Board  
2300 Yonge St, Suite 2701  
Toronto ON M4P 1E4

Dear Ms. Walli:

**Board File No. EB-2008-0384 Enbridge Gas Distribution Inc.  
Demand Side Management Input Assumptions – 2008 Program Year  
Comments of Energy Probe**

Pursuant to the Notice of Application and Hearing and Procedural Order No. 1, issued December 4, 2008, the following are the submissions of Energy Probe Research Foundation (Energy Probe) in respect of the Application in the EB-2008-0384 proceeding for the Board's consideration. An electronic copy of this communication in PDF format will be forwarded to the Board.

Our consultant, Mr. Norman Rubin, has reviewed the filings in this matter and the submissions of other parties. Energy Probe is in general support of the submissions of the CME, the GEC, the SEC and IGUA. Energy Probe submits that the Board should not adopt spillover as an Input Assumption for Enbridge's 2008 DSM Program Year, and should reject any new Input Assumptions that include spillover.

At this time, we are not prepared to take a position on the difference between GEC's and SEC's submissions on the specific matter of the Prescriptive School Boilers program, but we support GEC's submissions on Enbridge's assumptions concerning EnergySTAR Homes, Air Curtains, and Industrial Steam Traps.

Should you have any questions or require additional information, please contact me.

Yours truly,

David S. MacIntosh  
Case Manager
