**Re EB–2008–0183 – Horizon Utilities Corporation
2009 Electricity Distribution Rate Application
Rural or Remote Electricity Rate Protection Effective May 1, 2009**

Horizon Utilities Corporation (“Horizon Utilities”) filed its 2009 Electricity Distribution Rate Application based on the 3rd Generation Incentive Regulation Mechanism on November 17, 2008, which included a charge for Rural or Remote Electricity Rate Protection (“RRRP”) of 0.1 cents per kilowatt-hour.

As directed by the Ontario Energy Board (“OEB”), Horizon Utilities is submitting a copy of the OEB letter dated December 17, 2008, which establishes the RRRP charges for 2009 and would request that the RRRP charge in Horizon Utilities tariff sheet be revised to 0.13 cents per kilowatt-hour effective May 1, 2009.

Should you have any questions or require further information please do not hesitate to contact me.

Yours truly,

To: All Licensed Electricity Distributors and Retailers

Re: Rural or Remote Electricity Rate Protection

Ontario Regulation 442/01, Rural or Remote Electricity Rate Protection (“RRRP”) (made under the *Ontario Energy Board Act, 1998*) requires the Ontario Energy Board (the “Board”) to calculate the amount to be charged by the Independent Electricity System Operator (“IESO”) with respect to the RRRP for each kilowatt-hour of electricity that is withdrawn from the IESO-controlled grid.

Amount to be charged by the IESO for RRRP

Based on the demand forecast provided by the IESO, the Board has determined that the amount to be charged by the IESO with respect to the RRRP shall remain at the current level of 0.1 cents per kilowatt-hour effective January 1, 2009. Effective May 1, 2009, the IESO’s RRRP charge shall be 0.13 cents per kilowatt-hour.

Amount to be Charged by Distributors and Retailers for RRRP

Effective January 1, 2009, the RRRP charge shall remain at the current level of 0.1 cents per kilowatt-hour.

Effective May 1, 2009, the RRRP charge shall be 0.13 cents per kilowatt-hour.

After May 1, 2009 the RRRP charge shall remain at 0.13 cents per kilowatt-hour until such time as the Board revises it.

Distributors that currently have a rate application before the Board shall file this letter as an update to their evidence along with a request that the RRRP charge in their tariff sheet be revised to 0.13 cents per kilowatt-hour effective May 1, 2009.

Where a distributor does not have a rate application before the Board, the distributor shall make an application to the Board to alter the RRRP charge in its tariff sheet effective May 1, 2009 to 0.13 cents per kilowatt-hour.

In the collection of this amount from customers, the customer's metered energy consumption shall be adjusted by the Total Loss Factor as approved by the Board.

The Board wishes to remind all distributors and retailers that in accordance with subsection 5(6) of the Regulation:

A distributor or retailer who bills a consumer for electricity shall aggregate the amount that the consumer is required to contribute to the compensation required by subsection 79(3) of the Act with the wholesale market service rate described in the Electricity Distribution Rate Handbook issued by the Board, as it read on October 31, 2001.

Yours Truly,
