Board Staff Interrogatories
2009 Incentive Regulation Mechanism Rate Application
Milton Hydro Distribution Inc.
EB-2008-0195

Specific Service Charges

Ref: Current and Applied for Specific Service Charges (Sheet P2.1)

1. Milton Hydro Distribution Inc.'s 2008 Tariff of Rates and Charges included an Optional Interval/TOU Charge and a Clearance Pole Attachment Charge in the Specific Service Charges section. In the 2009 IRM application (sheet P2.1), the specific service charges listed above were not included. Please clarify whether or not these charges should be included in the 2009 IRM application?

Rural or Remote Electricity Rate Protection ("RRRP")

2. By letter dated December 17, 2008, the Board informed the electricity distributors of the approval it has given to the IESO regarding the level of charge the IESO may apply to its Market Participants for the Rural or Remote Electricity Rate Protection (RRRP) program. In that letter, the Board stated: "Distributors that currently have a rate application before the Board shall file this letter as an update to their evidence along with a request that the RRRP charge in their tariff sheet be revised to 0.13 cents per kilowatt-hour effective May 1, 2009."

If Milton Hydro Distribution Inc. has not done so, please file the required addition to the evidence as outlined in the December 17th letter.
