

Board Staff Interrogatories
2009 Incentive Regulation Mechanism Rate Application
Norfolk Power Distribution Inc.
EB-2008-0201

Revenue Requirement

Ref.: 2009 3rd Gen. IRM Supplementary Filing Module, Sheet B3.1

1. Cell G75 shows that your 2008 revenue requirement was \$11,449,926.

The draft 2008 rate order filing (re: EB-2007-0753) on page 13 shows a 2008 revenue requirement of \$11,539,379. Staff also notes that the difference between this number and the information provided in the IRM model is before taking into account the low voltage charges and transformer allowance.

Please reconcile these two figures, providing a full explanation for any differences.

Rural or Remote Electricity Rate Protection (“RRRP”)

2. By letter dated December 17, 2008, the Board informed the electricity distributors of the approval it has given to the IESO regarding the level of charge the IESO may apply to its Market Participants for the Rural or Remote Electricity Rate Protection (RRRP) program. In that letter, the Board stated: “Distributors that currently have a rate application before the Board shall file this letter as an update to their evidence along with a request that the RRRP charge in their tariff sheet be revised to 0.13 cents per kilowatt-hour effective May 1, 2009.”

If Norfolk Power Distribution Inc. has not done so, please file the required addition to the evidence as outlined in the December 17th letter.
