**Question #1**

**Reference:** Norfolk Power, 3GIRM Application and Supplementary Filing Model

- a) Please reconcile the differences in revenue by customer class as reported in Table 5 (page 6) of the Application and Tab C2.1 (Column E) of the Supplementary Model.
- b) With respect to Tab B3.1 (Supplementary Filing Model), please confirm that the OEB Cost Allocation Model included the cost of the Transformer Ownership Allowance in the Base Revenue Requirement and allocated it to all customer classes.
- c) Please confirm that in its 2008 Rate Order Norfolk excluded the cost of the transformer ownership allowance from the base revenue requirement allocated to all customer classes based on its proposed revenue to cost ratios and assigned the cost of the Transformer Ownership Allowance only to the GS>50 class.
- d) Given the price cap adjustment is applied to the all rates, why shouldn't it also be applied to the transformer ownership allowance for 2009?
